The Concise APA Handbook

APA 7th Edition

IAP Most students struggle with learning how to find references, use them effectively, and cite them appropriately in a required format. One of the most common formats is that of APA. The authors all have vast experience teaching writing courses to various levels of students from undergraduates to graduates in other countries. However, there was lacking a book that could explain the basics of APA in simple, easy-to-understand language for non-native speakers of English, who are often unfamiliar with using references and formatting an essay in a particular method. In order to offer English Learner student writers a source of information that is appropriate for their level, and is cost-effective, this updated APA 7th edition guidebook provides students with important information in clear, concise, user-friendly language, as well as to offer practical examples that will help them grasp the concept of secondary research writing. Much of the published materials on the market targets native speakers of English. The problem with this is that they present the nitpicky details of APA in ways that do not make sense to native speakers of English, let alone to those for whom English is not their first language, because the information is presented in very technical terms that are not easy to understand. This handbook presents the same information in simplified terms with images and step-by-step instructions in ways that make sense to both native and non-native English speaking student writers. Additionally, student writers often struggle with understanding the concept of plagiarism, as well as how to find sources, evaluate the appropriateness of sources, and use sources in effective ways (e.g., how to integrate quotes, when to paraphrase, among others). This book provides this important information that is concise and easy to understand. NOTE: This is a REVISED edition of our original The Concise APA Handbook, which has been updated for APA 7th edition, which was issued in the fall, 2019.

Post-polio Syndrome

A Guide for Polio Survivors and Their Families

Yale University Press The effects of polio that occur decades after the disease has run its course--weakness, fatigue, pain, intolerance to cold, difficulty with breathing and swallowing--are often more devastating than the original disease. This book on the diagnosis and management of polio-related health problems is an essential resource for polio survivors and their families and health care providers. Dr. Julie K. Silver, who has both personal and professional experience with post-polio syndrome, begins the book by defining and describing PPS and providing a historical overview of its diagnosis and treatment. Chapters that follow discuss finding good medical care, dealing with symptoms, maintaining proper nutrition and weight, preventing osteoporosis and falls, and sustaining mobility. Dr. Silver reviews the latest in braces, shoes, assistive devices, and wheelchairs and scooters. She also explores issues involving managing pain, surgery, complementary and alternative medicine, safe and comfortable living environments, insurance and disability, and sex and intimacy.

Progress in Colour Studies

Cognition, language and beyond

John Benjamins Publishing Company This volume presents authoritative and up-to-date research in colour studies by specialists across a wide range of academic disciplines, including vision science, psychology, psycholinguistics, linguistics, anthropology, onomastics, philosophy, archaeology and design. The chapters have been developed from papers and posters presented at the Progress in Colour Studies (PICS2016) conference held at University College London in September 2016. The book continues the series from the earlier PICS conferences, which have become renowned for their insights into colour in language and cognition. In the present book all chapters have been rigorously peer-reviewed and revised to ensure the highest standards throughout. The chapters are grouped into three sections: Colour Perception and Cognition; The Language of Colour; and The Diversity of Colour. Each section is preceded by a short introduction drawing together the themes of its chapters. There are over 120 colour illustrations.

The Sociology Student's Guide to Writing

SAGE Publications The Sociology Student's Guide to Writing, by Angelique Harris and Alia R. Tyner-Mullings, is a brief, economical reference work that gives practical advice about the writing tasks and issues that undergraduate students face in their first sociology courses. Along with more traditional topics, it incorporates valuable information about composing emails, writing for online forums, and using technology for information-gathering and note-taking. Used by itself or in combination with other texts, this book will increase the quality of student writing and enhance their knowledge of how sociologists communicate in writing.

Writing for Emerging Sociologists

SAGE A writing guide designed for upper-level sociology undergraduate students and graduate students, this instructional text introduces students to the variety of writing projects that sociologists undertake, while also providing instruction on grammar and composition. It will provide students with practical knowledge concerning topics such as: peer reviewed journal manuscripts, book reviews, grant proposals, and field notes. What makes this book unique is that it offers useful advice and instruction for sociology college students whether they plan on entering the academy or the private, non-profit, or government sectors. Writing for Emerging Sociologists uses writing as a tool to help students learn not only about sociology as a field of study, but also the practice of sociology.

The Man Who Mistook His Wife for a Hat And Other Clinical Tales

Vintage In his most extraordinary book, the bestselling author of *Awakenings* and "poet laureate of medicine" (The New York Times) recounts the case histories of patients inhabiting the compelling world of neurological disorders, from those who are no longer able to recognize common objects to those who gain extraordinary new skills. Featuring a new preface, Oliver Sacks's *The Man Who Mistook His Wife for a Hat* tells the stories of individuals afflicted with perceptual and intellectual disorders: patients who have lost their memories and with them the greater part of their pasts; who are no longer able to recognize people and common objects; whose limbs seem alien to them; who lack some skills yet are gifted with uncanny artistic or mathematical talents. In Dr. Sacks's splendid and sympathetic telling, his patients are deeply human and his tales are studies of struggles against incredible adversity. A great healer, Sacks never loses sight of medicine's ultimate responsibility: "the suffering, afflicted, fighting human subject."

Springer Science & Business Media The present book contains the proceedings of two conferences held at the World Computer Congress 2010 in Brisbane, Australia (September 20-23) organised by the International Federation for Information Processing (IFIP). In the first part, the reader can find the proceedings of the 9th Human Choice and Computers International Conference (HCC9) organised by the IFIP Technical Committee TC9 on the Relationship Between ICT and Society. The HCC9 part is subdivided into four tracks: Ethics and ICT Governance, Virtual Technologies and Social Shaping, Surveillance and Privacy, and ICT and Sustainable Development. The second part consists of papers given at the Critical Information Infrastructure Protection Conference (CIP) organized by the IFIP Technical Committee TC11 on Security and Privacy Protection in Information Processing Systems. The two parts of the book are introduced by the respective Conference Chairs. Chapter 1 introduces HCC9, providing a short summary of the HCC conference series, which started in 1974, and explaining the overview of HCC9, detailing the rationale behind each of the tracks in this conference. The details related to the papers of each track are discussed by the Track Chairs in the respective introductions to the specific tracks of HCC9 (Chaps. 2, 10, 16 and 22). Finally, Chap. 22 introduces the CIP part.

Encyclopedia of Educational Psychology

SAGE The field of educational psychology draws from a variety of diverse disciplines including human development across the life span, measurement and statistics, learning and motivation, and teaching. And within these different disciplines, many other fields are featured including psychology, anthropology, education, sociology, public health, school psychology, counseling, history, and philosophy. In fact, when taught at the college or university level, educational psychology is an ambitious course that undertakes the presentation of many different topics all tied together by the theme of how the individual can best function in an "educational" setting, loosely defined as anything from pre-school through adult education. Educational psychology can be defined as the application of what we know about learning and motivation, development, and measurement and statistics to educational settings (both school- and community-based).

The State of Nature

Ecology, Community, and American Social Thought, 1900-1950

University of Chicago Press Although science may claim to be "objective," scientists cannot avoid the influence of their own values on their research. In *The State of Nature*, Gregg Mitman examines the relationship between issues in early twentieth-century American society and the sciences of evolution and ecology to reveal how explicit social and political concerns influenced the scientific agenda of biologists at the University of Chicago and throughout the United States during the first half of this century. Reacting against the view of nature "red in tooth and claw," ecologists and behavioral biologists such as Warder Clyde Allee, Alfred Emerson, and their colleagues developed research programs they hoped would validate and promote an image of human society as essentially cooperative rather than competitive. Mitman argues that Allee's religious training and pacifist convictions shaped his pioneering studies of animal communities in a way that could be generalized to denounce the view that war is in our genes.

Online Counselor Education

A Guide for Students

SAGE Publications Online Counselor Education: A Guide for Students is an all-new guide for online students in counselor education programs. Students in online environments face a number of challenges that could put them at a disadvantage unless they have a resource to help guide them through some of the confusing aspects of an online environment. Such challenges include the lack of understanding surrounding graduate school performance expectations, balancing graduate school and life, the inability to connect with community members and local field agencies, and various other aspects unique to an online environment. This text from Carl J. Sheperis and R.J. Davis will help students through these challenges and act as an invaluable resource.

Regional Integration and Economic Development

Springer Regional integration seems to be thriving everywhere, as the examples of the Association of South East Asian Nations (ASEAN), the North Atlantic Free Trade Area (NAFTA) and the Southern Common Market will illustrate. More ambitious schemes, such as Asian Pacific Economic Cooperation (APEC), and those for Western hemispheric integration are also underway. How do these trends for integration relate to national development strategies? The contributors to this volume provide new insights into these developments as well as assessing the prospects for further integration.

Eat My Words

Reading Women's Lives Through the Cookbooks They Wrote

St. Martin's Griffin Some people think that a cookbook is just a collection of recipes for dishes that feed the body. In *Eat My Words: Reading Women's Lives through the Cookbooks They Wrote*, Janet Theophano shows that cookbooks provide food for the mind and the soul as well. Looking beyond the ingredients and instructions, she shows how women have used cookbooks to assert their individuality, develop their minds, and structure their lives. Beginning in the seventeenth century and moving up through the present day, Theophano reads the lines of recipes for dandelion wine, "Queen of Puddings," and half-pound cake to capture the stories and voices of these remarkable women. The selection of books looked at is enticing and wide-ranging. Theophano begins with seventeenth-century English estate housekeeping books that served as both cookbooks and reading primers so that women could educate themselves during long hours in the kitchen. She looks at *A Date with a Dish*, a classic African American cookbook that reveals the roots of many traditional American dishes, and she brings to life a 1950s cookbook written specifically for Americans by a Chinese émigré and transcribed into English by her daughter. Finally, Theophano looks at the contemporary cookbooks of Lynne Rosetto Kaspar, Madeleine Kamman, and Alice Waters to illustrate the sophistication and political activism present in modern cookbook writing. Janet Theophano harvests the rich history of cookbook writing to show how much more can be learned from a recipe than how to make a casserole, roast a chicken, or bake a cake. We discover that women's writings about food reveal--and revel in--the details of their lives, families, and the cultures they help to shape.

The Opioid Epidemic

Anthropology and Global Counterinsurgency

University of Chicago Press Global events of the early twenty-first century have placed new stress on the relationship among anthropology, governance, and war. Facing prolonged insurgency, segments of the U.S. military have taken a new interest in anthropology, prompting intense ethical and scholarly debate. Inspired by these issues, the essays in *Anthropology and Global Counterinsurgency* consider how anthropologists can, should, and do respond to military overtures, and they articulate anthropological perspectives on global war and power relations. This book investigates the shifting boundaries between military and civil state violence; perceptions and effects of American power around the globe; the history of counterinsurgency doctrine and practice; and debate over culture, knowledge, and conscience in counterinsurgency. These wide-ranging essays shed new light on the fraught world of Pax Americana and on the ethical and political dilemmas faced by anthropologists and military personnel alike when attempting to understand and intervene in our world.
