PRINCIPLES OF MANAGEMENT BY R. C. AGRAWAL, SANJAY GUPTA - (ENGLISH)

SBPD PUBLICATIONS

SBPD Publications An excellent book for commerce students appearing in competitive, professional and other examinations. 1. Management Concept : Meaning, Definitions and Need, 2. Managerial Functions, 3. Co-ordination : Meaning and Nature, 4. Evolution of Management Thought, 5. Management by Objectives (M.B.O.), 6. Planning, 7. Types of Plans and Corporate Planning, 8. Environmental Analysis and Business Environment, 9. Decisions-Making, 10. Nature and Process of Organisation, 11. Span of Control and Centralization and Decentralization of Authority, 12. Authority and Delegation of Authority, 13. Organizations Structure and Forms of Organisation, 14. Staffing, 15. Motivation, 16. Leadership, 17. Communication, 18. Managerial Control, 19. Techniques of Control and Emerging Issues in Management, 20. Direction—Concept and Techniques.

INORGANIC CHEMISTRY-II (FOR M.SC. COURSE FOR UNIVERSITIES IN UTTARAKHAND)

S. Chand Publishing This book entitled "Inorganic Chemistry-II", is an effort to present the subject matter in a comprehensible and easily understandable form. This textbook is purposefully prepared for the postgraduate Inorganic Chemistry second semester course and it covers all the topics recommended.

ALGEBRA AND TRIGONOMETRY

"The text is suitable for a typical introductory algebra course, and was developed to be used flexibly. While the breadth of topics may go beyond what an instructor would cover, the modular approach and the richness of content ensures that the book meets the needs of a variety of programs."--Page 1.

INDIAN NATIONAL BIBLIOGRAPHY

ELEMENTS OF PUBLIC ADMINISTRATION

BIOREMEDIATION TECHNOLOGY

HAZARDOUS WASTE MANAGEMENT

CRC Press The book describes hazardous waste industries, sources of waste generation, characterization and treatment processes/ methods and technique and technology to deal with the treated waste as per the prescribed standard. Advanced treatment based on the microbial remediation, plant-based decontamination, rhizoremediation and nano-based remediation is also explained. Advances in treatment technology using biotechnological tools/bionanotechnology for removal of contaminants are described. This volume will help readers to develop biotechnological and nanotechnological approaches for the remediation of hazardous waste and the developed technology that can be transferred from laboratory to land and piloting to commercial scenarios. Prof. M. H. Fulekar a Professor and Joint Director (R&D), Centre of Research for Development, Parul University. Dr. Bhawana Pathak is working as an Associate Professor and Dean in School of Environment and Sustainable Development, Central University of Gujarat.

QUADRATIC AND HERMITIAN FORMS

American Mathematical Soc. This book contains the proceedings of the 1983 Seminar on Quadratic and Hermitian Forms held at McMaster University, July 1983. Between 1945 and 1965, most of the work in quadratic (and hermitian) forms took place in arithmetic theory (M. Eichler, M. Kneser, O. T. O'Meara). In the mid-sixties, the algebraic theory of quadratic forms experienced a reawakening with the fundamental discoveries of A. Pfister. More recently, there have been signs that the subject, in both its algebraic and arithmetic aspects, is once more in a state of change, reaching out into new and different areas. Since the advent of surgery theory in the late sixties, that subject has been one of the principal users of the theory of quadratic and hermitian forms. Therefore, hermitian K -theory was included within the scope of the conference to further the contact between its practitioners and those in quadratic forms.

EVOLUTION OF GEOGRAPHICAL THOUGHT

This book covers a wide canvas of the story of geographical thoughts, ideas, and knowledge, from the early Greek period to modern contemporary geography. Presenting an introduction to the philosophy, history, and methodology of geography, the book maps the intellectual changes in the discipline over the years. To keep students abreast with the recent trends in geography, along with its methodological problems, the book has been updated and revised, making it a comprehensive textbook on geographical thought. The main objective of the sixth edition is to incorporate a number of relevant new topics and concepts which will expand the geographical base of interested students about the philosophy and methodology of geography. The book is presented in a larger format with improved maps and

illustrations. A new chapter introduces students to a contemporary sub-discipline of Feminist Geography. Also included is a comprehensive list of biographic notes on selected geographers. [Subject: Geography]

A NEW APPROACH TO REASONING VERBAL & NON-VERBAL

Arihant Publications India limited Reasoning is equally weighed section in any competitive examination. Reasoning tests the thinking power and mind applicability skills of the candidates. The questions on reasoning asked in various competitive examinations are not easy to solve without having enough practice. The revised edition of A New Approach to Reasoning will help candidates master the 'Tricks of the Trade' as it covers all the three types of reasoning very much comprehensively. This book has been divided into 3 Sections - Verbal Reasoning, Analytical Reasoning and Non-Verbal Reasoning each sub-divided into number of chapters with different types of questions of multiple patterns asked in various exams. The Verbal Reasoning section covers Analogy, Clocks, Calendar, Puzzles, Coding-Decoding, Classification, Number Series, Letter Series, Blood Relations, Clerical Aptitude, etc. whereas, the Analytical Reasoning section covers Statement & Arguments, Statement & Assumptions, Course of Action, Cause & Effects, Syllogism, etc. The Non-Verbal Reasoning section covers Analogy, Classification, Completion of Figures, Cubes, Paper Folding, Mirror Image, Water Image, Figure Matrix, etc. Two Leveled Exercises have been given for practice. More than 2000 Previous Years' Questions of different competitive examinations including MAT and other MBA entrances, Bank PO, Clerk, SSC, LIC, RBI, RRB, B.Ed. etc along with their authentic and detailed solutions have been covered in the exercises. The ample number of previous years' questions will help the candidates get an insight into the trends and types of questions asked in the test of reasoning in various competitive and recruitment examinations.

PHYSICAL GEOGRAPHY

MADE SIMPLE

Elsevier Physical Geography Made Simple focuses on developments in physical geography, including advancements in the study of landforms, weather, climate, water, soils, plants, and animals. The book first offers information on rocks and relief, weathering, slopes, and rivers and drainage basins. Topics include rock structures and landforms, crustal structure and movement, physical and chemical weathering, measurement and description of slopes, and transport, erosion, and deposition. The manuscript then ponders on glacial and periglacial landforms and desert and uropical landforms. The publication takes a look at coastal features, landscape development, and the atmosphere and its energy. The manuscript also elaborates on moisture in the atmosphere, air motion, general circulation, and weather. Discussions focus on fronts, weather prediction, planetary wind belts, pressure variations, upper air motion, adiabatic processes, and evaporation and condensation. The text is a valuable reference for geographers and readers interested in physical geography.

COMPANY LAW

SBPD Publishing House Company Law by Dr. O.P. Gupta is a publication of the SBPD Publishing House, Agra. Dr. O.P. Gupta holds a M.Com., LL.B., Ex-F.C.S. and Ph.D. degree. He was a reader at the P.G.D.A.V. College (University of Delhi), New Delhi.

CHEMISTRY FOR DEGREE STUDENTS B.SC. SEMESTER - I (AS PER CBCS)

S. Chand Publishing This textbook has been designed to meet the needs of B.Sc. First Semester students of Chemistry as per the new UGC Model Curriculum - Choice Based Credit System (CBCS). With its traditional approach to the subject, this textbook lucidly explains principles of chemistry. Important topics such as atomic structure, chemical bonding, molecular structure, fundamentals of organic chemistry, stereochemistry and aliphatic hydrocarbons are aptly discussed to give an overview of inorganic and organic chemistry. Laboratory work has also been included to help students achieve solid conceptual understanding and learn experimental procedures.

PURE THEORY OF LAW

The Lawbook Exchange, Ltd. Kelsen, Hans. Pure Theory of Law. Translation from the Second German Edition by Max Knight. Berkeley: University of California Press, 1967. x, 356 pp. Reprinted 2005 by The Lawbook Exchange, Ltd. ISBN 1-58477-578-5. Paperbound. \$36.95 * Second revised and enlarged edition, a complete revision of the first edition published in 1934. A landmark in the development of modern jurisprudence, the pure theory of law defines law as a system of coercive norms created by the state that rests on the validity of a generally accepted Grundnorm, or basic norm, such as the supremacy of the Constitution. Entirely self-supporting, it rejects any concept derived from metaphysics, politics, ethics, sociology, or the natural sciences. Beginning with the medieval reception of Roman law, traditional jurisprudence has maintained a dual system of "subjective" law (the rights of a person) and "objective" law (the system of norms). Throughout history this dualism has been a useful tool for putting the law in the service of politics, especially by rulers or dominant political parties. The pure theory of law destroys this dualism by replacing it with a unitary system of objective positive law that is insulated from political manipulation. Possibly the most influential jurist of the twentieth century, Hans Kelsen [1881-1973] was legal adviser to Austria's last emperor and its first republican government, the founder and permanent advisor of the Supreme Constitutional Court of Austria, and the author of Austria's Constitution, which was enacted in 1920, abolished during the Anschluss, and restored in 1945. The author of more than forty books on law and legal philosophy, he is best known for this work and General Theory of Law and State. Also active as a teacher in Europe and the United States, he was Dean of the Law Faculty of the University of Vienna and taught at the universities of Cologne and Prague, the Institute of International Studies in Geneva, Harvard, Wellesley, the University of California at Berkeley, and the Naval War College. Also available in cloth.

Concept Publishing Company Papers presented at a workshop held in New Delhi during Oct. 28- 29, 1994.

FOUNDATIONS OF PHYSICS: ELECTROMAGNETICS OPTICS AND MODERN PHYSICS

New Age International The Book Has Been Written In Two Volumes: Volume One Deals With Mechanics, Waves And Heat, And Volume Two With Electricity, Magnetism, Optics And Modern Physics. The Emphasis Is On Basic Concepts Which Have Been Developed In A Coherent Manner From The Very Beginning. Apart From Covering The Entire Cbse Syllabus For Class Xi And Class Xii, The Book Goes Beyond Its Confines, And Becomes More Broad Based. As Such, Wider Coverage Of Topics Should Provide Flexibility In Its Use In Various States. In This Format The Book Should Be Acceptable In Other Countries Also. Si Units Have Been Followed. Theoretical Details Of Laboratory Experiments Usually Performed And Instruments Used At This Level Have Been Given. The Discussion And Problems At The End Of Each Chapter Form An Integral Part Of The Text, As Quite A Few Topics Have Been Introduced Through Them.

THE TRIUMPH OF MODERNISM

INDIA'S ARTISTS AND THE AVANT-GARDE, 1922-47

Reaktion Books The tumultuous last decades of British colonialism in India were catalyzed by more than the work of Mahatma Gandhi and violent conflicts. The concurrent upheavals in Western art driven by the advent of modernism provided Indian artists in post-1920 India a powerful tool of colonial resistance. Distinguished art historian Partha Mitter now explores in this brilliantly illustrated study this lesser known facet of Indian art and history. Taking the 1922 Bauhaus exhibition in Calcutta as the debut of European modernism in India, The Triumph of Modernism probes the intricate interplay of Western modernism and Indian nationalism in the evolution of colonial-era Indian art. Mitter casts his gaze across a myriad of issues, including the emergence of a feminine voice in Indian art, the decline of "oriental art," and the rise of naturalism and modernism in the 1920s. Nationalist politics also played a large role, from the struggle of artists in reconciling Indian nationalism with imperial patronage of the arts to the relationship between primitivism and modernism in Indian art. An engagingly written study anchored by 150 lush reproductions, The Triumph of Modernism will be essential reading for scholars of art, British studies, and Indian history.

MANAGEMENT PRINCIPLES AND APPLICATIONS (FOR SEM.- 3RD, UTKAL UNIVERSITY, ODISHA)

Vikas Publishing House This book presents the subject matter tailor-made for the latest syllabus as per CBCS Odisha to enable its students to study the course material through a single book without having to refer to multiple sources and comprehend the subject in simple, understandable language.

CONTEMPORARY ISSUES IN INTERNATIONAL RELATIONS

PROBLEMS OF THE INTERNATIONAL COMMUNITY

Cambridge Scholars Publishing Recent regional and global crises have changed the structure of international relations and cause countries to be inconsistent in their policies. Examples of these include the protest demonstrations and political crises which started in the Middle East and African countries in 2010 known as the 'Arab Spring', which had a major effect on Syria, and the movement towards Brexit. These emerging regional and global crises have highlighted the shortcomings of the discipline of international relations and the need for a new, detailed study to be conducted. The topics in this book have been carefully selected in order to provide a more objective assessment of the recent and ongoing problems of the international community. This volume will be a valuable resource for graduate, undergraduate and post-graduate students, academics and researchers in the areas of cyber security, international law, international organizations, and international relations.
