Open Road Media Angell's absorbing collection traces the highs and lows of major-league baseball in the 1980s Roger Angell once again journeys through five seasons of America's national pastime—chronicling the larger-than-life narratives and on-field intricacies of baseball from 1982 to 1987. Angell's collected New Yorker essays, written in his unique voice as a fan and baseball aficionado, cover the development of the game both on the diamond and off. While diving into subjects such as Sparky Anderson's '84 Detroit Tigers, the legendary 1986 World Series and the Curse of the Bambino, and the increasingly pervasive issue of player drug use, Angell reveals the craft and technique of the game, and the unforgettable stories of those who played it.

Examining the Relationship Between College Football Season Ticket Holders' Service Personal Values and Their Behavioral Intentions

The Moderating Effect of Team Identification

Recently, some college football programs have experienced unsustainable attendance growth, increases in revenue discrepancies, stagnant "revenue growth", and increased operating costs (Brown, 2009; Fulks, 2009; Fullerton & Morgan, 2009; Jackson, 2005; NCAA, 2009, 2010). These problems can be examined from customer service, social identification, and consumer behavior perspectives (Curtin, 1982; Katona, 1974; Wann & Branscombe, 1993; Zeithaml, 1988). This study's research purposes are to understand service personal values antecedents and outcomes, and team identification's moderating effect on the relationship between service personal values, and both consumption satisfaction perceptions and behavioral outcomes. A sample of college football season ticket holders at a large public university in Southeastern United States completed an online

survey. Factorial multivariate analysis of variance (MANOVA), multiple regression analysis, and hierarchical regression analysis were used to analyze the data. The findings of this study indicated college football season ticket holders' team identification moderated the relationship between their service value to social recognition (SVSR), and both consumption satisfaction and behavioral intentions. College football season ticket holders' with low team identification level are more likely to depend on SVSR to formulate their consumption satisfaction perceptions and behavioral intentions, compared to college football season ticket holders' with high team identification level. Antecedents of college football season ticket holders' service personal values include number of household members, gender, university affiliation, number of years holding season tickets, and ethnicity.

[Createspace Independent Publishing Platform](#) It opened like that hole that Wilbert ran through that changed everything. And as it busted wide open, it had a Golden Ticket inside. And every year, year in and year out, when it came in the mail, like a shot of Jack, that warm rush came over me and tingled down to my toes. It was Ticket Day. Eagles Season Ticket Day. And that day in Philadelphia, Pennsylvania is a well observed holiday. It was my first Philadelphia Eagles Season Ticket Day. And there have been 40 of these wonderful moments that have helped to blot out the pain that goes with them. And I've loved every minute. Brotherly Love. WE. When I first received my Eagles Season Tickets, they cost about \$10.00 a seat per game. No lie. Not like today. There wasn't any waiting list of 100,000 people. There wasn't any advertising for buying Eagles season tickets. Let's be honest. We sucked. Back then, we were so bad that even Santa woulda gotten a pass on a snowy day at The Vet.

Ticket Office Sexism

The Gender Gap in Pricing for NCAA Division I Basketball

Tickets to college sports--and men's and women's Division I college basketball in particular--may appear on the surface no different than tickets members of the public may buy to attend professional sporting events. But unlike professional franchises, colleges are non-profit organizations and, in many cases, public institutions. Decisions around ticket prices do not reflect an actual marketplace, but internal calculations and decisions that necessarily reflect a value placed on the event by the institution. This distinction is critical because previous research shows that lower-priced events are perceived as lower quality and less worth watching or attending. Our review of ticket prices for men's and women's Division I college basketball for the 2008-2009 season considered entry fees charged by 292 institutions at various seating levels, including season ticket packages and single game tickets. Our results showed significant gender gaps at every pricing and seating level with colleges charging a premium for male play. This gap persisted even among teams identified by the NCAA as top-ranked women's teams with large fan followings. Analysis of attendance figures further showed that the gender differential in price across schools is not accounted for by differences in attendance. Because athletics, and particularly college basketball, have an increasingly prominent cultural profile, the practice of effectively de-valuing women on the court has implications off the court as well. The results support the broader contention that women athletes--as women in traditionally male arenas--continue to face institutional discrimination that is camouflaged as sensible economic practice.

Come from Away

Simon and Schuster From the bestselling author of *Tides of Honour* and *Promises to Keep* comes a poignant novel about a young couple caught on opposite sides of the Second World War. In the fall of 1939, Grace Baker's three brothers, sharp and proud in their uniforms, board Canadian ships headed for a faraway war. Grace stays behind, tending to the homefront and the general store that helps keep her small Nova Scotian community running. The war, everyone says, will be over before it starts. But three years later, the fighting rages on and rumours swirl about "wolf packs" of German U-Boats lurking in the deep waters along the shores of East Jeddore, a stone's throw from Grace's window. As the harsh realities of war come closer to home, Grace buries herself in her work at the store. Then, one day, a handsome stranger ventures into the store. He claims to be a trapper come from away, and as Grace gets to know him, she becomes enamoured by his gentle smile and thoughtful ways. But after several weeks, she discovers that Rudi, her mysterious visitor, is not the lonely outsider he appears to be. He is someone else entirely--someone not to be trusted. When a shocking truth about her family forces Grace to question everything she has so strongly believed, she realizes that she and Rudi have more in common than she had thought. And if Grace is to have a chance at love, she must not only choose a side, but take a stand. *Come from Away* is a mesmerizing story of love, shifting allegiances, and second chances, set against the tumultuous years of the Second World War.

Season Ticket Holder No-shows

An Attendance Dilemma at Mississippi State Baseball Games

The Mississippi State Bulldogs baseball team has enjoyed strong fan support over the years as the Bulldogs play in front of sold out crowds each time they take the field. The problem is not the ability to sell tickets, but the high frequency of "no-shows." Ticketing Director, John King, must consider the big picture when formulating a plan to solve this problem. There are many areas within the athletic department that contribute to this problem, and can help "right the ship" as John described it. The goal is to solve the problem with frequency of attendance at home baseball games from multiple aspects. Many areas within the athletic department factor into this process: 1) fundraising and development, 2) ticket office, 3) marketing department, and 4) promotions department.
