## The Biology of Human Freedom: Understanding the Genetic Foundations of Self-Ownership

*Glacier Publishing* With the doctrine of unalienable rights failing to halt the expansion of government power over the individual, a new enlightenment is needed that establishes that man is a free and sovereign being. This self-ownership can be found in man's biology. The evidence already exists; it only needs to be expressed. In this fascinating and engaging book, Thomas delves into the biological basis underpinning the drive for self-preservation found in many species of plants and animals. He shows that, not only do plants and animals defend their own lives, they have a genetically based drive for owning, holding, and defending property. The evidence shows that humans share the same drives as thousands of other life forms, and that these drives are deeply imbedded in the structure of DNA. In the quest to be free from war, dictatorship and political pestilence, man has struggled for thousands of years against the intraspecies predators who push him towards calamities that have resulted in the deaths, misery and enslavement of millions. Employing a radically different style of thinking, Thomas embarks on a critical review of many human misconceptions, including the concepts of natural rights, the collective, duty and the alienation of man from nature. He then goes about proposing a rational alternative to these delusional doctrines.

### Chili Dawgs Always Bark at Night

*NewSouth Books* In **Chili Dawgs Always Bark at Night**, Lewis Grizzard once again confirms his reputation as the "William Faulkner of just plain folks" using colorful storytelling to tackle such Grizzardian subjects as: Fashion: "Don't wear anything that features a picture of a pelican, a pink flamingo, or a beer can." The Future: "I'm predicting the world isn't going to come to an end anytime soon. There's too much unresolved, like whether or not Elvis is still alive, Jimmy Swaggart can stay on television, and if there will be another Rambo sequel." Dating: "Any single white female who has to resort to taking out an ad to find a boyfriend would take a SWM who's into yodeling, Hustler magazine, Ripple, and robbing convenience stores." People Who Cheat in the 12-Items-or-Less Lane: "Previously, I have dog-cussed these people and put curses on them, like, 'May your children grow up to be liberal Democrats.' I'm not going to be that mean-spirited anymore. What I'm going to do is go to the vegetable bin, grab a large cucumber, and beat them about the head and shoulders with it." Lewis Grizzard offers his views on everything from politics, religion, sex, and golf to the largest condom heist in history, wittier and more outrageous than ever. **Chili Dawgs Always Bark at Night** shows why the South's most popular humorist continues to be America's most popular funny man.
