THE TOKYO TRIAL AND WAR CRIMES IN ASIA

Springer Nature The book examines the process and the impact of the International Military Tribunal for the Far East (IMTFE), otherwise known as the Tokyo Trial, which was convened in 1946 to try the Japanese leaders accused of committing war crimes during World War II. Offering valuable research materials, it studies the lessons learned from the failed attempt after World War I, and the background and establishment of the IMTFE. It elaborates on the Charter, the Indictment, the Proceeding Records, and the Judgment of the IMTFE, with an emphasis on principles of international law and other legal questions, often with reference to the Nuremberg Trial. It also discusses the structure and different parts of the court organization, the selection and prosecution of Class-A war criminals, and the trial procedures especially those relating to evidence. The author's personal experience and his criticism of certain aspects of the Tokyo Trial make it most insightful for the reader. From the perspective of a Chinese judge, this unique text brings in the dimensions of both international law and international relations, and allows us to measure the significance and legacy of the Tokyo Trial for contemporary international criminal justice. The author's manuscript of this book was written in Chinese in the mid-1960s as part of a larger project, and was initially published in 1988. This is the first time that this book has been translated into English.

THE TOKYO WAR CRIMES TRIAL

THE PURSUIT OF JUSTICE IN THE WAKE OF WORLD WAR II

Harvard Univ Council on East Asian This book assesses the historical significance of the International Military Tribunal for the Far East (IMTFE)—commonly called the Tokyo trial—established as the eastern counterpart of the Nuremberg trial in the immediate aftermath of World War II. Through extensive research in Japanese, American, Australian, and Indian archives, Yuma Totani taps into a large body of previously underexamined sources to explore some of the central misunderstandings and historiographical distortions that have persisted to the present day. Foregrounding these voluminous records, Totani disputes the notion that the trial was an exercise in “victors' justice” in which the legal process was egregiously compromised for political and ideological reasons; rather, the author details the achievements of the Allied prosecution teams in documenting war crimes and establishing the responsibility of the accused parties to show how the IMTFE represented a sound application of the legal principles established at Nuremberg. This study deepens our knowledge of the historical intricacies surrounding the Tokyo trial and advances our understanding of the Japanese conduct of war and occupation during World War II, the range of postwar debates on war guilt, and the relevance of the IMTFE to the continuing development of international humanitarian law.

WAR CRIMES TRIBUNALS AND TRANSITIONAL JUSTICE

THE TOKYO TRIAL AND THE NUREMBURG LEGACY

Routledge Advocates of the ‘Nuremberg legacy’ emphasize the positive impact of the individualization of responsibility and the establishment of an historical record through judicial procedures for ‘war crimes’. This legacy has been cited in the context of the establishment and operation of the UN ad hoc International Criminal Tribunals in the 1990s, as well as for the International Criminal Court. The problem with this legacy, however, is that it is based solely on the experience of West Germany. Furthermore, the effect of the procedure on post-conflict society has not been empirically examined. This book does this by analyzing the Tokyo Trial, the other International Military Tribunal established after the Second World War, and its impact on post-war Japan. Madoka Futamura examines the short- and long-term impact of the International Military Tribunal for the Far East (the Tokyo Trial), on post-war Japan, in order to improve the understanding of and strategy for ongoing international war crimes tribunals. War Crimes Tribunals and Transitional Justice will be of much interest to students of war crimes, international law, transitional justice and international relations in general.

THE TOKYO TRIBUNAL

PERSPECTIVES ON LAW, HISTORY AND MEMORY

Torkel Opsahl Academic EPublisher Edited by Dr. Viviane E. Dittrich, Prof. Kerstin von Lingen, Prof. Philipp Osten and Dr. Jolana Makraiova, this book concerns the 'International Military Tribunal for the Far East' (IMTFE), held in Tokyo from May 1946 to November 1948. It was a landmark event in the development of modern international criminal law. The trial in Tokyo was a complex undertaking and international effort to hold individuals accountable for core international crimes and delivering justice. The Tribunal consisted of 11 judges and respective national prosecution teams from 11 countries, and a mixed Japanese-American team of defence lawyers. The IMTFE indicted 28 Japanese defendants, amongst them former prime ministers, cabinet ministers, military leaders, and diplomats, based on a 55-count indictment pertaining to crimes against peace, war crimes, and crimes against humanity. The judgment was not unanimous, with one majority judgment, two concurring opinions, and three dissenting opinions. The trial and the outcome were the subject of significant controversy and the Tribunal's files were subsequently shelved in the archives. While its counterpart in Europe, the 'International Military Tribunal' (IMT) at Nuremberg, has been at the centre of public and scholarly interest, the Tokyo Tribunal has more recently gained international scholarly attention. This volume combines perspectives from law, history, and the social sciences to discuss the legal, historical, political and cultural significance of the Tokyo Tribunal. The collection is based on an international conference marking the 70th anniversary of the judgment of the IMTFE, which was held in Nuremberg in 2018. The volume features reflections by eminent scholars and experts on the establishment and functioning of the Tribunal, procedural and substantive issues as well as receptions and repercussions of the trial.

Excerpt: The International Military Tribunal for the Far East (IMTFE), also known as the Tokyo Trials, the Tokyo War Crimes Tribunal or simply as the Tribunal, was convened on April 29, 1946, to try the leaders of the Empire of Japan for three types of crimes: "Class A" crimes were reserved for those who participated in a joint conspiracy to start and wage war, and were brought against those in the highest decision-making bodies; "Class B" crimes were reserved for those who committed "conventional" atrocities or crimes against humanity; "Class C" crimes were reserved for those in "the planning, ordering, authorization, or failure to prevent such transgressions at higher levels in the command structure." The Tokyo trials were not the only forum for the punishment of Japanese war criminals, merely the most visible. In fact, the Asian countries victimized by the Japanese war machine tried far more Japanese-an estimated five thousand, executing as many as 900, and sentencing more than half to life in prison. THE TOKYO TRIAL, JUSTICE, AND THE POSTWAR INTERNATIONAL ORDER

Springer Fully utilizing the latest archival material, this book provides a comprehensive, multi-dimensional and nuanced understanding of the Tokyo Tribunal by delving into the temporal aspects that extended the relevance and reverberations of the Tribunal beyond its end in 1948. With this as a backdrop, this book contributes to the study of Japanese postwar diplomacy. It shows the Tokyo Tribunal is still very much an experiment in progress, and how the process itself has helped Japan to quickly shed its imperial past and remain ambiguous as to its war responsibilities. From a wider vantage point, this book augments the existing scholarship of international criminal law and justice, offering a clear framework as to the limits of what international criminal tribunals can accomplish and offers a must-read for academics and students as well as for practitioners, journalists and policymakers interested in international criminal law and US-Japanese diplomatic history,
