Caste and Partition in Bengal: The Story of Dalit Refugees, 1946-1961 *The Story of Dalit Refugees, 1946-1961 Oxford University Press* The book seeks to situate caste as a discursive category in the discussion of Partition in Bengal. In conventional narratives of Partition, the role of the Dalit or the Scheduled Castes is either completely ignored or mentioned in passing. The authors address this discursive absence and argues that in Bengal the Dalits were neither passive onlookers nor accidental victims of Partition politics and violence, which ruptured their unity and weakened their political autonomy. They were the worst victims of Partition. When the Dalit peasants of Eastern Bengal began to migrate to India after 1950, they were seen as the 'burden' of a frail economy of West Bengal, and the Indian state did not provide them with a proper rehabilitation package. They were first segregated in fenced refugee camps where life was unbearable, and then dispersed to other parts of India - first to the Andaman Islands and the neighbouring states, and then to the inhospitable terrains of Dandakaranya, where they could be used as cheap labour for various development projects. This book looks critically at their participation in Partition politics, the reasons for their migration three years after Partition, their insufferable life and struggles in the refugee camps, their negotiations with caste and gender identities in these new environments, their organized protests against camp maladministration, and finally their satyagraha campaigns against the Indian state's refugee dispersal policy. This book looks at how refugee politics impacted Dalit identity and protest movements in post-Partition West Bengal.

Psychology in Modern India: Historical, Methodological, and Future Perspectives *Springer Nature* This book offers a critical account of the conceptual, theoretical, and methodological developments in key areas of psychology in India, providing insights into the developments and advances as well as future directions. Filling an important gap in the literature on the history of psychology in India, it brings together contributions by leading scholars to present a clear overview of the state of the art of the field. The thematic parts of the book discuss the historical perspectives: development of psychology in India; research methodologies in the West and India; future directions for research in the field. The book is of special interest to researchers, school administrators, curriculum designers, and policymakers.

Reconstructing the Bengal Partition: The Psyche Under a Different Violence A psychological study of the Bengal Partition, a traumatic time that continues to resonate. Why has it been so hard for Bengal to recover from this catastrophe, shared with the people of Punjab, who faced much more brutal and horrendous violence over a short period? Was it due to very different historical circumstances? The refugees were targets of soft violence, an extreme form of mental assault that chilled them with fear till they fled. They could not tell whether old friends had become new foes. Were they imagining this or perhaps it was a true reading of the situation? Departures were spread over many years, preventing a sharper break with the past, prolonging their confusion over identity, the grief of being uprooted, of feeling unwelcome in the truncated state of West Bengal. The author interviews a number of respondents who were young children or adolescents from the bhadralok, the educated section of society, to gauge their understanding of Partition and how it affects their lives. She uses the insights of psychoanalysis and cognitive psychology. Alan Roland, the distinguished psychoanalyst, talks of how the depth of these interviews and Basus psychological understanding of each person give a new understanding of memory and the reconstruction of Partition in peoples mind.

Memories and Postmemories of the Partition of India *Routledge* This book examines the afterlife of Partition as imprinted on the memories and postmemories of Hindu and Sikh survivors from West Punjab to foreground the intersection between history, memory and narrative. It shows how survivors script their life stories to reinscribe tragic tales of violence and abjection into triumphalist sagas of fortitude, resilience, industry, enterprise and success. At the same time, it reveals the silences, stutters and stammers that interrupt survivors' narrations to bring attention to the untold stories repressed in their consensual narratives. By drawing upon current research in history, memory, narrative, violence, trauma, affect, home, nation, borders, refugees and citizenship, the book analyzes the traumatizing effects of both the tangible and intangible violence of Partition by tracing the survivors' journey from refugees to citizens as they struggle to make new homes and lives in an unhomely land. Moreover, arguing that the event of Partition radically transformed the notions of home, belonging, self and community, it shows that individuals affected by Partition produce a new ethics and aesthetic of displacement and embody new ways of being in the world. An important contribution to the field of Partition studies, this book will be of

interest to researchers on South Asian history, memory, partition and postcolonial studies. *South Asia Boundaries, Borders and Beyond* Routledge Post-colonial and post-partition South Asia, one of the fastest-growing and yet one of the least integrated regions of the world, is marked by both optimism and pessimism. This intriguing dichotomy of strength and weakness, security and insecurity, hope and fear, connections and disconnects underpins South Asia's regionalism conundrum and gives birth to borders and boundaries - both material and mental - with a complex territoriality. The Janus-faced nature of South Asian borderlands - the inward nationalizing impulses entangled with the outward regional frontier-orientations - is a stark reminder that history of mobility in this eco-geographical region is much older than the history of territoriality and colonial cartography and ethnography. This collection of meticulously researched, theoretically informed, case studies from South Asia provides useful insights into bordering, ordering and othering narratives as practices and performances that are intricately entangled with identity politics and security discourses. It shows how a sharper focus on subterranean subregionalism(s), border communities, popular geopolitics of enmity, and transborder challenges to sustainability, could open up spaces for new multiple (re)imaginings of borders at diverse scales and sights including sub-urban neighbourhoods, school textbooks/cinema and trans-border conservation initiatives. The chapters in this edited volume have been contributed by both renowned as well as young emerging scholars, looking into the borders and boundaries in South Asia. Each chapter offers new perspectives and insights into themes like trans-Himalayan borderlands, India-Pakistan physical and mental borders, Afghanistan-Pakistan border and numerous social boundaries that we see in everyday South Asia. The chapters in this book were originally published as a special issue of the *Journal of Borderlands Studies*. *The Psychology of Genocide and Violent Oppression A Study of Mass Cruelty from Nazi Germany to Rwanda* McFarland The twentieth century was one of the most violent in all of human history, with more than 100 million people killed in acts of war and persecution ranging from the Herero and Namaqua genocide in present-day Namibia during the early 1900s to the ongoing conflict in Darfur. This book explores the root causes of genocide, looking into the underlying psychology of violence and oppression. Genocide does not simply occur at the hands of tyrannical despots, but rather at the hands of ordinary citizens whose unresolved pain and oppression forces them to follow a leader whose demagoguery best expresses their own long-developed prejudices and fears. The book explains how birth trauma, childhood trauma, and authoritarian education can be seen as the true causes of genocidal periods in recent history. *The Psychological Impact of the Partition of India* SAGE Publishing India The first of its kind, this book studies the psychological impact of Partition through medical and psychiatric perspectives. The Partition of India was a partitioning of minds as much as it was a geographical division. But there has been little discussion in mental health discourse on the psychological scars it caused. This book examines the partitioning of human experience and its impact on social life and psychological health. The chapters track, through various approaches, the breakdown of civic life and society during the cataclysmic event, the collapse of medical services, the violence against citizens and the reflection of these events in writings of that era. The book draws attention to the urgent need for a humane understanding of persons with mental illness and psychological distress in the context of their lived history as much as their sociocultural identities and roots. *The Social Psychology of Crime Groups, Teams and Networks* Routledge Crime is always part of a social process. In many cases that process determines the form the crime takes. In this ground-breaking book, a wide range of crimes are examined in terms of the social psychological processes that influence the participants and their relationships with each other. Crimes as diverse as fraud and hostage taking are examined from a range of social science perspectives, including broad anthropological perspectives on differences in the structure of criminal cultures as well as the detailed consideration of the roles offenders play in groups and teams of criminals. This book opens up a new area of empirical study of relevance to students of crime as well as law enforcement officers. It will also be of value and interest to all those social scientists who wish to understand how their disciplines can contribute more effectively to the investigation of crime. *Ritwik Ghatak and the Cinema of Praxis Culture, Aesthetics and Vision* Springer Nature In a significant departure from other works on Ritwik Ghatak, this book establishes him as an auteur and a maestro on par with some of the great film directors, like Sergei Eisenstein, Satyajit Ray, Ingmar Bergman, Federico Fellini, Kenji Mizoguchi and Luis Bunuel. Based on in-depth research that follows Ghatak's journey within the context of the Indian People's Theatre Association, it fills an important gap in the scholarship around Ghatak by offering crucial insights into Ghatak's unique vision of cinema embedded as it is in the cultural psychic configurations of the people. It analyses Ghatak's practice by minutely tracing formal similarities across the language of his cinematic oeuvre in the domain of cinematography, lighting, music, and sound. The book develops the way in which cinematic technique enters the domain of conceptual constructs and abstractions. It moves on to chronicle Ghatak's political odyssey as reflected in his cinema. Moreover, it charts the manner in which Ghatak, through his cinematic idiom, offers a polemic of cinema that further adds to his notion of praxis - a thoughtful Marxist paradigm organically associated with the culture and context of India. By locating Ghatak within the discourse of nationalism, the book brings to the surface Ghatak's critical insights related to the independence of the nation and the trauma of the partition of Bengal. Ghatak's cinema served the crucial function of chronicling the mass tragedy of partition and its impact on the human psyche. This book appeals to scholars of film studies and filmmaking as well as to researchers and general readers interested in debates pertaining to culture, politics, art, psychoanalysis, partition and refugee studies, cinema, theatre, and ideology. *Postcolonial Theories* Bloomsbury Publishing Postcolonial Theories is a lively introduction to postcolonial theories, contexts and literatures which presents both the theory and practice to students in approachable and attractive ways. Jenni Ramone includes discussion of a wide range of influential theorists such as Frantz Fanon, Homi Bhabha, Rey Chow, Edward Said, Ngugi wa Thiong'o, Paul Gilroy and Trinh T. Minh-ha. She also demonstrates postcolonial ideas through compelling readings of a wide range of exciting literary texts, including: - Nawal El Saadawi's *God Dies by the Nile* - Aravind Adiga's *The White Tiger* - Shyam Selvadurai's *Funny Boy* - Jamaica Kincaid's *My Brother*. Covering a diverse array of geographical locations, and featuring a helpful timeline and annotated bibliography, this is essential

reading for anyone with an interest in postcolonial theories and how they have continued to adapt in the wake of globalization, digital technology and neo-colonialism. *Partitions Reshaping States and Minds* Routledge The partition of the Indian subcontinent, the collapse of the Soviet Union and Yugoslavia, the reunification of Germany, the continuing feud between two Koreas, the Irish peace process, the case of Israel/Palestine and the lingering division of Cyprus, have together given rise to a huge body of literature. However, studies of partitions have usually focused on individual cases. This innovative volume uses comparative analysis to fill the gap in partition studies and examines cross-cutting issues such as: * violence * state formation * union and regional unification * geopolitics * transition. *Haram in the Harem Domestic Narratives in India and Algeria* Peter Lang *Haram in the Harem* focuses on the differences in nationalist discourse regarding women and the way female writers conceptualized the experience of women in three contexts: the middle-class Muslim reform movement, the Algerian Revolution, and the Partition of India. During each of these periods the subject of women, their behavior, bodies, and dress were discussed by male scholars, politicians, and revolutionaries. The resonating theme amongst these disparate events is that women were believed to be best protected when they were ensconced within their homes and governed by their families, particularly male authority, whether they were fathers, brothers, or husbands. The threat to national identity was often linked to the preservation of womanly purity. Yet for the writers of this study, Ismat Chughtai (1915-1991), Assia Djebar (1936-), and Khadija Mastur (1927-1982), the danger to women was not in the public sphere but embedded within a domestic hierarchy enforced by male privilege. In their fictional texts, each writer shows how women resist, subvert, and challenge the normative behaviors prescribed in masculine discourse. In their writings they highlight the different ways women negotiated private spaces between intersecting masculine hegemonies of power including colonialism and native patriarchy. They demonstrate distinct literary viewpoints of nation, home, and women's experiences at particular historical moments. The choice of these various texts reveals how fiction provided a safe space for female writers to contest traditional systems of power. Bringing into focus the voices and experiences of women - who existed as limited cultural icons in the nationalist discourse - is a common theme throughout the selected stories. This book showcases the fluidity of literature as a response to the intersections of gender, race, and nation. *Psychology in India Volume IV: Theoretical and Methodological Developments (ICSSR Survey of Advances in Research)* Pearson Education India *Psychology in India Volume IV: Theoretical and Methodological Developments* is part of the periodic surveys in the major disciplines of the social sciences to assess disciplinary developments and to identify gaps in researches conducted by The Indian Council of Social Science Research. Six essays cover appraisal of the methodological developments in psychological research, efforts towards developing indigenous perspectives in psychology etc. Also psychoanalytic contributions, concerns of gender in psychological research, and some other critical perspectives are also discussed. *Culture and the Literary Matter, Metaphor, Memory* Rowman & Littlefield A study of how cultural codes are constructed, consumed and conveyed in works of fiction and non-fiction. *Peace Psychology in Australia* Springer Science & Business Media This book is a case study of the development of peace psychology in Australia. While there is, in comparison to other countries, relatively little overt violence, Australia the nation was founded on the dispossession of Indigenous people, and their oppression continues today. *Peace Psychology in Australia* covers the most significant issues of peace and conflict in the country. It begins with a review of conflict resolution practices among Australia's ancient Indigenous cultures and succinctly captures topics of peace and conflict which the country has faced in the past 222 years since British settlement. The fast population growth, thriving multiculturalism, leadership in international affairs and environmental isolation make Australia a microcosm for the study of human conflicts and peace movements. *Psychology of the Other-one An Introductory Text-book of Psychology* "The present book is the result of the necessity, existing in some colleges and universities, of giving elementary instruction in modern psychology to college students who are only members of the freshman class, to students who have never studied psychology before, to students who may never study it later, to students who have little knowledge of physics and chemistry and perhaps still less of biology, to students who take an elementary course in psychology in order to take afterwards a course in educational psychology, and to students who want elementary psychology for a better understanding of the social sciences. For these classes of college students this book is written as a text to be elaborated by the instructor as he wishes, by the aid of lectures, additional reading assignments or laboratory work"-- Preface. (PsycINFO Database Record (c) 2010 APA, all rights reserved). *Understanding Psychology in the Context of Relationship, Community, Workplace and Culture* Springer Nature This book explores the significant deliverables of psychology to society in five sections: identity and relationship, psychology for gainful employment, psychology customized to the community, culturally embedded psychology and alternatives for maximizing psychology. The authors, social scientists of diverse nationalities, represent novel psychological methods, tools and procedures that can have immense social utility in strengthening the relationship and rejuvenating the community. The first section offers an in-depth perspective on the dynamics between identity and relationship. The second section encompasses psychology's contribution in addressing community-based issues like farmer suicide, cyberbullying, smartphone overuse, substance abuse and collective environmental behaviour. The authors in the third section have deliberated upon the behavioural issues pertinent for gainful employment. The fourth section delineates the influence of culture on specific psychological processes. The last section touches upon means beyond conventional strategies, techniques and approaches that may augment psychology's deliverability. The chapters in this book are based upon evidence-based scholarships from seven different countries. As such, it represents an invaluable resource for research scholars and academicians in psychology, human resource managers and mental health practitioners. *Psychology, Development and Social Policy in India* Springer Science & Business Media This book examines how and where psychology can engage itself in the framing of social policies for national as well as human development in India. Although the role that psychological knowledge can play in informing social policy decisions has been discussed for a long time, psychologists by and large have had little role in framing policy decisions related to such important domains as education, health,

social justice and social inclusion. Policy makers, not only in India, but more or less everywhere have focused on interventions at the macro level, which has led them to ignore the root causes of the problems lying at the micro level. However, with the more humanistic approaches now being followed by economists and other social scientists, the person in society is slowly taking centre stage. Micro-level variables like happiness, the wellbeing of individuals and the social relationships within which people define themselves are becoming important. Therefore, this book discusses important psychological issues related to human development; particularly, health and education, social justice, social integration, environment and work organizations, besides focusing on some general issues relating to the logic of making social policies. It is a first-ever attempt in India to inform policy makers about how micro-variables can be a crucial factor to consider while framing social policies. *Peace Psychology in Asia* Springer Science & Business Media

In recent years, peace psychology has grown from a utopian idea to a means of transforming societies worldwide. Yet at the same time peacebuilding enjoys global appeal, the diversity of nations and regions demands interventions reflecting local cultures and realities. *Peace Psychology in Asia* shows this process in action, emphasizing concepts and methods diverging from those common to the US and Europe. Using examples from China, India, Indonesia, the Philippines, and elsewhere in the region, chapter authors illuminate the complex social, political, and religious conditions that have fostered war, colonialism, dictatorships, and ethnic strife, and the equally intricate personal and collective psychologies that need to be developed to encourage reconciliation, forgiveness, justice, and community. *Peace Psychology in Asia: Integrates psychology, history, political science, and local culture into concepts of peace and reconciliation. Highlights the indigenous aspects of peace psychology. Explains the critical relevance of local culture and history in peace work. Blends innovative theoretical material with empirical evidence supporting peace interventions. Balances its coverage among local, national, regional, and global contexts. Analyzes the potential of Asia as a model for world peace. As practice-driven as it is intellectually stimulating, Peace Psychology in Asia is vital reading for social and community psychologists, policy analysts, and researchers in psychology and sociology and international studies, including those looking to the region for ideas on peace work in non-Western countries.* The International Journal of Indian Psychology, Volume 4, Issue 1, No. 75 RED'SHINE Publication. Inc

The International Journal of Indian Psychology (e-ISSN 2348-5396 | P-ISSN 2349-3429) is an psychological peer-reviewed, academic journal that examines the intersection of Psychology, Education, and Home science. The journal is an international electronic and print journal published in quarterly. *An Introduction to Criminal Psychology* Routledge Crime is a topic that is of considerable interest to policy-makers, politicians and the public alike. We want to know what factors can explain the nature and prevalence of crime in society and use this knowledge to better develop approaches for managing criminal behaviour. This book provides a comprehensive overview of approaches to understanding crime and criminal behaviour, with a focus on psychological perspectives. A wide range of different types of criminal behaviour are considered, including juvenile crime, violent offending, sexual offending, collective violence and drug use. For each type of offence a clear overview of key conceptual and methodological issues is provided, along with a detailed consideration of the major theoretical approaches that have been developed. The book concludes by considering how our theoretical understanding of crime can inform our responses to criminal behaviour in terms of punishment, prevention and rehabilitation. Key features of the book include: • an in-depth coverage of a broad range of different types of criminal behaviour; • inclusion of a diverse range of different theoretical perspectives; • accessibly written, with extensive use of case studies, boxes and activities; • an extensive use of up-to-date references that highlight the current state of knowledge in the field of criminal psychology. This book should be of interest to students, academics, researchers and practitioners with an interest in criminal behaviour, and is particularly suitable for undergraduate courses in criminal psychology, forensic psychology and psychological criminology. *Enlarging the Scope of Peace Psychology African and World-Regional Contributions* Springer With the major goal of building an inclusive international community that promotes peace-related research and action, this volume reflects on local, national and global peace engagement and works towards transdisciplinary understandings of the role of psychology in peace, conflict, and violence. Drawn primarily from 14th Biennial International Symposium on the Contributions of Psychology, the chapters focus on peacemaking--or the pursuit of harmony in human relations-- and peacebuilding--or equity in human relations-- with a special emphasis on voices from typically underrepresented areas in psychology, such as the Global South. In order to move beyond a Western-centered idea of peace psychology, the volume is divided into two major parts. The first half of the volume puts an emphasis on peace psychology research and praxis in a number of geohistorical contexts, including Malaysia, Northern Ireland, Thailand, and Kashmir, that bear on conflict, harmony and equity in human relations. Chapters in the second half of the volume fulfill the mandate of Biennial Symposia; namely, to create more equity in the production of peace theory and praxis by bringing forward the voices of scholars and change agents that are often unheard in peace discourses, including a number of scholars and chapters from South Africa. Additionally, throughout the chapters, the authors and editors of the volume emphasize emancipatory agendas as an important alternative to militarism and state-sponsored violence. With the aim of bringing forward voices from cultures and situations that are typically not included or highly visible in peace discourses, *Enlarging the Scope of Peace Psychology in Invited and Invented Spaces: African and World-Regional Contributions* is a thought-provoking, timely, and informative work. Psychologists, anthropologists, sociologists, political scientists, activists, public-policy makers, and all those interested in promoting peace and justice, are sure to find this an invaluable and illuminating resource. *Psychology In India. Volume 2: Social And Organizational Processes* Pearson Education India Revised version of papers presented at the National Workshop for Fifth ICSSR Survey of Psychological Research, held at Delhi during 23-24 October 2006. *The Partition of Bengal Fragile Borders and New Identities* Cambridge University Press This study looks at the rich literature that has been spawned through the historical imagination of Bengali-speaking writers in West Bengal and Bangladesh through issues of homelessness, migration and exile to see how the Partition of Bengal in 1947 has thrown a long shadow over memories and cultural practices. Through a rich trove of literary and other

materials, the book lays bare how the Partition has been remembered or how it has been forgotten. For the first time, hitherto untranslated archival materials and texts in Bangla have been put together to assess the impact of 1947 on the cultural memory of Bangla-speaking peoples and communities. This study contends that there is not one but many smaller partitions that women and men suffered, each with its own textures of pain, guilt and affirmation. **Violence and Resistance in Sikh Gendered Identity** *Taylor & Francis* This book examines the constructions and representations of male and female Sikhs in Indian and diasporic literature and culture through the consideration of the role of violence as constitutive of Sikh identity. How do Sikh men and women construct empowering identities within the Indian nation-state and in the diaspora? The book explores Indian literature and culture to understand the role of violence and the feminization of baptized and turbaned Sikh men, as well as identity formation of Sikh women who are either virtually erased from narratives, bodily eliminated through honor killings, or constructed and represented as invisible. It looks at the role of violence during critical junctures in Sikh history, including the Mughal rule, the British colonial period, the Partition of India, the 1984 anti-Sikh riots in India, and the terror of 9/11 in the United States. The author analyzes how violence reconstitutes gender roles and sexuality within various cultural and national spaces in India and the diaspora. She also highlights questions related to women's agency and their negotiation of traumatic memories for empowering identities. The book will interest scholars, researchers, and students of postcolonial English literature, contemporary Indian literature, Sikh studies, diaspora studies, global studies, gender and sexuality studies, religious studies, history, sociology, media and films studies, cultural studies, popular culture, and South Asian studies. **The Partitions of Memory The Afterlife of the Division of India** *Indiana University Press* This easy-to-use, comprehensive pack of teacher resources will help you deliver effective lessons for GCSE Science, ensuring achievement for every student - Teach with confidence " with comprehensive teacher resources matched to our Scheme of Work, supported by detailed lesson plans, worksheets, ideas for practicals with full technicians' notes -Deliver outstanding lessons " our lesson plans are fully matched to the new specification, with Learning Objectives and Outcomes, Controlled Assessment Skills, and teacher guidance built into each lesson -Ensure achievement for every student " differentiated lesson plans and worksheets enable you to plan for and teach low-ability and high-achieving students -Improve Controlled Assessment performance " practical activities and worksheets build skills, with opportunities for assessment highlighted in lesson plans -Reduce planning time " our student books, teacher packs, homework packs, interactive books and assessment package are fully integrated and matched to our scheme of work so you can get started straight away -Provide support for all your teachers " new or non-specialist teachers can confidently pick up and teach with ready-to-use classroom resources; experienced teachers can save time and browse for new ideas **Poets and Partitions Confronting Communal Identities in Northern Ireland** *Apollo Books* **Poets and Partitions** offers a comprehensive analysis of Northern Irish poetry, focusing on the colonial, political, and cultural underpinnings that have shaped artistic expression in a variety of ways. In discussing the rich poetry reflecting the conflict of community, author Jon Curley examines what aesthetic choices poets make in order to register, resist, or re-imagine life and thought under particularly tumultuous conditions. The focus is on both the better-known contemporary Northern Irish poets, as well as their more obscure, but no less significant, counterparts. Forms of communal identity generated in Northern Ireland are examined by way of an ethical critique that references the conceptual blockages and innovations that help foster new poetic representations of society. Establishing the complexity and potency of poetic experimentation, **Poets and Partitions** is a timely commentary for all those interested in the intersection of aesthetics and politics. The exploration of communal identity-formations in Northern Irish poetry, or poetry in general, has been dismissed by some critics as an unhelpful approach to understanding literature. But, as this study demonstrates, it is a vital area of scholarly examination, and Jon Curley's in-depth analysis illuminates understanding of how poets confront their communal, social, and sectarian orders. **Multiculturalism and Identity Politics A Study of Three Parsee Diasporic Writers Sidhwa, Mistry and Desai** *Partridge Publishing* This book aims at analysing the fiction produced by the expatriate Parsee writers of the Indian subcontinent: Bapsi Sidhwa, Rohinton Mistry and Boman Desai. These Parsee writers of the South Asian origin have emigrated to Canada and USA in the latter part of the twentieth century. Their works offer several possibilities seen from the multicultural point of view. The fiction of these Parsee diasporic writers examines the problem of migration, relocation and changing identities from a vantage point of distance gained by an insider's view of their community and an outsider's view from the host country. Dislocations, even when voluntary, always have a traumatic side to it due to the process of acculturation, assimilation into or differences with the host country and the issue of rights and privileges in the new location. For the diasporic communities of different backgrounds, their memory, history and cultural beliefs are the important factors that determine their identities. These Parsee novels demonstrate how individual and group/collective identities of the Parsees get constructed and reconstructed/redefined against the changing multinational contexts. **Issues in Behavioral Psychology: 2013 Edition** *ScholarlyEditions* **Issues in Behavioral Psychology / 2013 Edition** is a ScholarlyEditions™ book that delivers timely, authoritative, and comprehensive information about Adaptive Behavior. The editors have built **Issues in Behavioral Psychology: 2013 Edition** on the vast information databases of ScholarlyNews.™ You can expect the information about Adaptive Behavior in this book to be deeper than what you can access anywhere else, as well as consistently reliable, authoritative, informed, and relevant. The content of **Issues in Behavioral Psychology: 2013 Edition** has been produced by the world's leading scientists, engineers, analysts, research institutions, and companies. All of the content is from peer-reviewed sources, and all of it is written, assembled, and edited by the editors at ScholarlyEditions™ and available exclusively from us. You now have a source you can cite with authority, confidence, and credibility. More information is available at <http://www.ScholarlyEditions.com/>. **Religion and Politics in Jammu and Kashmir** *Taylor & Francis* This book examines the shifting, non-linear relationship between religion, nationalism and politics in the state of Jammu and Kashmir, India. In the wake of the revocation of Article 370, the state's plural and relatively harmonious society has come under multiple strains, with religion often informing day-to-day politics. The chapters in this volume: Trace the formation of the

political entity of Jammu and Kashmir and the seemingly secular politics of its three regions Discuss the rise of militancy and resistance movements in the Kashmir Valley Highlight the intersection between everyday life, nationalism and resistance through a study of the literary traditions of Kashmir, contemporary resistance photography and everyday communalism located in the changing food practices of Hindu and Muslim communities Religion and Politics in Jammu and Kashmir will be an indispensable read for students and researchers of religion and politics, democratization and democracy, secularism, sociology, cultural studies and South Asian studies. The SAGE Encyclopedia of Criminal Psychology *SAGE Publications* The SAGE Encyclopedia of Criminal Psychology will be a modern, interdisciplinary resource aimed at students and professionals interested in the intersection of psychology (e.g., social, forensic, clinical), criminal justice, sociology, and criminology. The interdisciplinary study of human behavior in legal contexts includes numerous topics on criminal behavior, criminal justice policies and legal process, crime detection and prevention, eyewitness identification, prison life, offender assessment and rehabilitation, risk assessment and management, offender mental health, community reintegration, and juvenile offending. The study of these topics has been increasing continually since the late 1800s, with people trained in many legal professions such as policing, social work, law, academia, mental health, and corrections. This will be a comprehensive work that will provide the most current empirical information on those topics of greatest concern to students who desire to work in these fields. This encyclopedia is a unique reference work that looks at criminal behavior primarily through a scientific lens. With over 500 entries the book brings together top empirically driven researchers and clinicians across multiple fields—psychology, criminology, social work, and sociology—to explore the field. Representing the Troubles in Irish Short Fiction *CUA Press* Representing the Troubles in Irish Short Fiction offers a comprehensive examination of Irish short stories written over the last eighty years that have treated the Troubles, Ireland's intractable conflict that arose out of its relationship to England. Perspectives on Modern South Asia A Reader in Culture, History, and Representation *John Wiley & Sons* While the eight South Asian countries of Afghanistan, Bhutan, Bangladesh, India, the Maldives, Nepal, Pakistan, and Sri Lanka continue to be divided by deep national differences, they also share common cultures, languages, and religions. "Perspectives on Modern South Asia" is an interdisciplinary collection of readings drawn from anthropology, literary and cultural studies, history, sociology, economics, and political science that will shape a fuller understanding of the complexities of contemporary South Asia. Featuring selections from an international group of experts, this volume explores the tension between the lived experience of cultural or religious tolerance and the deployment of culture or religion for nationalist purposes. Visweswaran offers a wealth of thought-provoking insights into the origins and development of the shifting politics, cultures, economies, and national identities of a region of the world that is home to a fifth of humanity. Where To From Here? Examining Conflict-Related and Relational Interaction Trauma *BRILL* War, rape, domestic violence, child sexual abuse and loss challenge all those affected to find ways to come to terms with and transcend their experience. This book strives to offer new understandings. Nation-state and Minority Rights in India Comparative Perspectives on Muslim and Sikh Identities *Routledge* The blood-laden birth-pangs of the Indian "nation-state" undoubtedly had a bearing on the contentious issue of group rights for cultural minorities. Indeed, the trajectory of the concept 'minority rights' evolved amidst multiple conceptualizations, political posturing and violent mobilizations and outbursts. Accommodating minority groups posed a predicament for the fledgling "nation-state" of post-colonial India. This book compares and contrasts Muslim and Sikh communities in pre- and post-Partition India. Mapping the evolving discourse on minority rights, the author looks at the overlaps between the Constitutional and the majoritarian discourse being articulated in the public sphere and poses questions about the guaranteeing of minority rights. The book suggests that through historical ruptures and breaks, communities oscillate between being minorities and nations. Combining archival material with ethnographic fieldwork, it studies the identity groups and their vexed relationship to the ideas of nation and nationalism. It captures meanings attributed to otherwise politically loaded concepts such as nation, nation-state and minority rights in the everyday world of Muslims and Sikhs and thus tries to make sense of the patterns of accommodation, adaptation and contestation in the life-world. Successfully confronting and illuminating the challenge of reconciling representation and equality both for groups and within groups, this exploration of South Asian nationalisms and communal relations will be of interest to academics in the field of South Asian Studies, in particular Sociology and Politics. Social Psychology Identities and Relationships *Juta and Company Ltd* Using current socio-political thought and research, this book examines topics such as violence, social and political transition, race and racism, and sexualities. Theoretical and empirical research are related to topical problems, highlighting the complex relations of individuals to their societies and to one another. The histories and complexities of problems and their interconnectedness are examined, and possible solutions are suggested. Special attention is paid to class, sexuality, gender, and race, making psychology in general, and social psychology in particular, relevant and exciting. Social Psychology in Action Evidence-Based Interventions from Theory to Practice *Springer* This timely and applied textbook brings together leading scientists to illustrate how key theories and concepts in social psychology help to predict and explain behavior, and can be successfully applied to benefit social and practical problems. It focuses on robust theories and models known for their successful applications and covers a diverse range of settings—spanning classroom interventions, health behavior, financial decision making, climate change and much more. Each chapter comprises of a theoretical section to define the key concepts and summarize the theory, providing evidence for its reliability and limitations from basic research, as well as an application section that summarizes research in an applied context and provides details about a particular study including the respective application setting. The textbook expertly shows how theory can make meaningful predictions for real world contexts, and isn't afraid to explain the potential hurdles and pitfalls when applying a theory and its underlying set of concepts in a certain context. Crucially, this format moves towards theory testing in applied contexts, enabling a closer examination of why and under what circumstances interventions may be successful in obtaining a desired behavioral or psychological end-state. Among the topics explored: Mindset theory of action phases and if-then

planning Quality of motivation in self-determination theory The focus theory of normative conduct Social identity theory and intergroup contact theory Intergroup forgiveness Social Psychology in Action is a critical resource for advanced undergraduate and graduate students in social and cultural psychology, as well as students of behavioral economics seeking to develop a deeper understanding of major theories and applications of the fields. Practitioners working in the areas of organizational behavior and management, health communication, social work, and educational science and pedagogy will also find the volume pertinent to their work. Handbook of Psychology, Industrial and Organizational Psychology *John Wiley & Sons* Psychology is of interest to academics from many fields, as well as to the thousands of academic and clinical psychologists and general public who can't help but be interested in learning more about why humans think and behave as they do. This award-winning twelve-volume reference covers every aspect of the ever-fascinating discipline of psychology and represents the most current knowledge in the field. This ten-year revision now covers discoveries based in neuroscience, clinical psychology's new interest in evidence-based practice and mindfulness, and new findings in social, developmental, and forensic psychology. Advances in Clinical Child Psychology *Springer Science & Business Media* With this volume, *Advances in Clinical Child Psychology* enters its second decade. The goal of the series is to provide clinicians and researchers in the fields of clinical child psychology, child psychiatry, school psychology, and related disciplines with an annual compilation of statements that summarize the new data, concepts, and techniques that advance our ability to help troubled children. Looking forward, the series intends to highlight the emerging developments that will guide our field of inquiry and practice; looking back, the eleven volumes in the series provide an interesting chronicle of changes in our understanding. Each year, scholars are chosen whose recent work is on the leading edge of clinical child psychology and its sibling disciplines, who offer potentially important new theoretical viewpoints, or who are well qualified to discuss topics of emerging importance that are not identified with one particular laboratory. Perhaps more than in any previous volume, the authors of the present volume have achieved fully the goals of the series. Volume 11 is a rich source of exciting ideas, important new information, and cogent analysis. The topics of these chapters, moreover, can be seen to represent the important broad themes in clinical child psychology today. The volume begins with two chapters that describe emerging theoretical perspectives. *India Analysed* Sudhir Kakar in Conversation with Ramin Jahanbegloo *Oxford University Press* Based on interviews of Sudhir Kakar by Iranian philosopher Ramin Jahanbegloo, *India Analysed* is a journey into Kakar's mind—his fertile and unpredictable ways of thinking, and the essential humanism which all his writings signify—recounting the life and ideas of Kakar in his own words. In the process, the book affords readers rare insights into the psychological make-up of the modern Indian. Flowing effortlessly from Kakar's descriptions of his early life in undivided India to discussions on the Indian psyche and sexuality, the book also dwells on his views on secularism and modern Indian leaders like Gandhi and Nehru. Kakar brings to bear his intellect on a wide range of issues like philosophy, democracy, Indian culture and tradition, and the Partition, and the conversational style of the interviews helps demystify many of his complex ideas. The third in the series of Ramin Jahanbegloo's interviews of prominent intellectuals who have influenced modern Indian thought, this challenging and engaging volume will interest both a scholarly and an informed lay audience who want to understand India as seen through the eyes of one of the country's leading contemporary thinkers.
