**Demon Hunter** *Terry Spear* Hunter is half a Matusa demon, determined to help his human-raised demon friends return to the demon world to find their families. And to help Alana learn a way to keep portals from pulling her to them, and getting herself into all kinds of trouble. Not that she can't handle some of the trouble on her own. She's a half demon too, and half witch. Jared is looking for his parents. Celeste is looking for hers. Samson is there to protect Alana, though Hunter keeps reminding him Alana is his to protect. It was a simple mission, but nothing for the demon guardians is ever simple. Between dealing with a demon who is organizing demon hunters—who go after Hunter and his friends, a major train wreck, and all sorts of havoc, it's no wonder the demon gate guardians end up calling in reinforcements this time. As long as Hunter can get Alana to agree to be his mate, he can save the world. Alana will never give up her hot demon, but she believes he should work a little harder to prove he is the one for her. And he's not going to give up trying to convince her either. But they still have one little problem: staying alive long enough to do it. **The Trouble with Demons** *Terry Spear* Witches and warlocks hide their true identities from the rest of the human population, while three teens with demon heritage living with human families, become unlikely companions in a race against time to deal with a demon threat to humankind in their own quirky way. Alana Fainot, a witch and half Kubiteron demon, witnesses a Matusa murder his summoner, and she knows he'll target her next. Raised by her mother, she has no idea who her demon father is. But when she's pulled to a demon portal, she meets Hunter Ross, half Matusa, half human, who returns demons to their world, but who's been poisoned by a Matusa and is more dead than alive. His human mother gave him up for adoption, and he doesn't know who either of his birth parents are. His friend Jared

Kensington, full blooded Elantus demon, less powerful than the Kubiteron, is a whiz at electronics and helps Hunter track demons in the city, but was abandoned by his parents on Earth world for reasons unknown. He's determined to find help to save Hunter. Alana knows aiding any Matusa is a mistake, but when she learns Hunter is half human, she makes a deal—he protects her against the Matusa who will come for her, and she helps find his dad in the demon world to save Hunter's life. Often at odds, the three teens work together to stop the plans of a group of Matusa to take over the human race before it's too late. *Demon Trouble, Too Terry Spear* Alana Fainot is a demon gate guardian, stuck in her last boring year of school. But not for long. Hunter and the rest of the gang show up when her astral form can't return to her physical form, and she's at the police station trying to talk her way out of having seen the murderer of a summoner. Hunter always knew Alana was trouble, but his kind of trouble, and he's not leaving Alana alone again. Celeste Sweetwater, a new kind of demon, joins Hunter and Alana and the rest of the demon guardians in a fight to find a new kind of portal device that can summon several demons at once. But not only that, another Matusa has been unleashed on the unsuspecting human world and the demon guardians must stop him before he wreaks much more havoc. But this time, the police are involved, paranormal investigators pounce on the area, and the whole mess seems to be spiraling out of the demon guardians' control. *Demon Guardians Alana Fainot* is a demon gate guardian, stuck in her last boring year of school. "An excellent read. I feel the author took a bullet for everyone, so we don't have to be tempted to do such an act of self harm." - Reader Review This comic and acerbic book looks at why we feel the need to quantify and rank our art, revels in the complex musical world we live in, and wonders why anyone would voluntarily listen to Bono. "Here's a lesson for all aspiring singers. Bono can hit lots of those 'notes' that you hear about. Tom Waits, by contrast, can't hit any of them; nor can he sound like anything other than a drunken vacuum cleaner. But I would rather listen to Tom than Bono from now until the end of time." "Disco sucks. It's a vile and wretched pox

on the landscape of musical history, a music designed to be stripped of all merit save for its ability to make people shuffle around in darkened rooms, trying desperately to blot out the tedium of their existence, literally dancing to the beat of their own repression. That's even before you take into account the squeaky voices." **Seducing the Huntress** *Terry Spear* When the vampire takes on a dare to seduce the huntress, little does he know he's on her terminal list already! Set in an island paradise, neither the huntress nor her prey really knows who the real rogue is and who is being made to take the fall, but will she succumb to the ancient vampire's will before it is too late? The vampire Sarzoven and his sister are bored with life so a death-defying game of seducing the huntress is an attempt at eliminating boredom. But Miranda isn't about to be seduced by the vampire no matter how sexy he is, not when he's on her terminal list. Sarzoven soon realizes she's a dark huntress, who doesn't eliminate a rogue vampire until she's sure he or she is truly a renegade. So why is he on her list? Now he must convince her to remove him from her elimination schedule before she decides he really is a rogue. Miranda knows she can't permit the vampire from swaying her from her mission, but soon she finds she's on someone else's list. But who's behind this twisted game that's bound to stir up vampire and hunter hatred alike? And can the huntress and vampire overcome their age old distrust of one another before it's too late? **The Siren's Lure** *Terry Spear* A vampire wishes upon a falling star and ends up with more than he bargained for. When he attempts to rescue a woman in distress, he soon learns she's not quite human and not a huntress-or at least like any he's ever known. That's when the seduction begins-but who is seducing whom? Tristina isn't a huntress in the normal sense. Before meeting the vampire who would rescue her from danger, she never thought anyone could love her for herself. Now, just maybe she's found the right man for her. Sardis wants nothing more than a vacation from his ponderous role as prince of the New York vampire clans, but ends up having anything but a peaceful time while staying at a beach resort when he meets the most enticing siren. Trouble doesn't even begin to describe the new world he finds himself in as he tries to seduce her, and he falls under her siren's spell instead. **A Demon in Silver (War of the Archons)** *Titan Books (US, CA)* In a world where magic has vanished, rival nations vie for power in a continent devastated by war. When a young woman demonstrates magical talent for the first time in decades there are those that will kill to obtain her power. But the girl finds that guardians can come from the most unlikely places. **Ghostly Liaisons** *Terry Spear* Emily Rundle's curious nature causes her big problems when she moves with her family to Florida. First of all, she's different. Really different. Then the nightmares begin. The kind she can't escape. Somehow she has to unravel the mystery of the ghosts who plague her before it's too late. Michael Shipley just moved to town, too, and realizes at once Emily is trouble with a big T. If he becomes involved with her, his life will change forever. Premonitions he has that Emily's life will be in danger forces him to make a stand to protect

the girl who's gifted with extraordinary abilities like him. They instantly bond as the two weirdest kids in school. Both Michael and Emily have past histories, painful memories they'd rather forget. Faced with dangerous new challenges, they must overcome their past, threats at school, bullies in the flesh, and ghostly apparitions bent on a deadly game of revenge. What was once a simple matter, discover the secrets of the ghosts and appease them, becomes a race against time as Emily and Michael fight the evil that threatens to conquer them. **Beating the Devil The Making of the Night of the Demon** *Tomahawk* The film's troublesome production schedule is brought vividly to life through Tony Earnshaw's enthusiastic style - including new research and original interviews. Earnshaw's book tracks the film's development from the original ghost story **Casting the Runes** by M R James through the various shooting scripts, alternative titles, and the challenging production work, to the final theatrical release. Along the way there are anecdotes, analysis and fascinating insights into British movie making in the 1950s, as well as previously unseen production designs by Sir Ken Adam, who went on to create the gadgets and secret bases that helped make the Bond series an international phenomenon. The seven-year-old twins Estha and Rahel see their world shaken irrevocably by the arrival of their beautiful young cousin, Sophie. It is an event that will lead to an illicit liaison and tragedies accidental and intentional, exposing "big things [that] lurk unsaid" in a country drifting dangerously toward unrest. Lush, lyrical, and unnerving, *The God of Small Things* is an award-winning landmark that started for its author an esteemed career of fiction and political commentary that continues unabated. *Demon in My View Laurel Leaf* Jessica isn't your average teenager. Though nobody at her high school knows it, she's a published author. Her vampire novel *Tiger, Tiger* has just come out under the pen name Ash Night. Jessica often wishes she felt as comfortable with her classmates as she does among the vampires and witches of her fiction. She has always

been treated as an outsider at Ramsa High. But two new students have just arrived in Ramsa, and both want Jessica's attention. She has no patience with overly friendly Caryn, but she's instantly drawn to handsome Alex, a cocky, mysterious boy who seems surprisingly familiar. If she didn't know better, she'd think Aubrey, the alluring villain from *Tiger, Tiger* had just sprung to life. That's impossible, of course; Aubrey is a figment of her imagination. Or is he? Nail-bitingly suspenseful, here is the deliciously eerie follow-up to *In the Forests of the Night*, by the remarkable fifteen-year-old novelist Amelia Atwater-Rhodes.

Every era has its own moral panics. It was Stanley Cohen's classic account, first published in the early 1970s and regularly revised, that brought the term 'moral panic' into widespread discussion. It is an outstanding investigation of the way in which the media and often those in a position of*

political power define a condition, or group, as a threat to societal values and interests. Fanned by screaming media headlines, Cohen brilliantly demonstrates how this leads to such groups being marginalised and vilified in the popular imagination, inhibiting rational debate about solutions to the social problems such groups represent. Furthermore, he argues that moral panics go even further by identifying the very fault lines of power in society. Full of sharp insight and analysis, *Folk Devils and Moral Panics* is essential reading for anyone wanting to understand this powerful and enduring phenomenon. Professor Stanley Cohen is Emeritus Professor of Sociology at the London School of Economics. He received the Sellin-Glueck Award of the American Society of Criminology (1985) and is on the Board of the International Council on Human Rights. He is a member of the British Academy. *The War of Art Break Through the Blocks and Win Your Inner Creative Battles* *Black Irish Entertainment LLC* What keeps so many of us from doing what we long to do? Why is there a naysayer within? How can we avoid the roadblocks of any creative endeavor—be it starting up a dream business venture, writing a novel, or painting a masterpiece? *The War of Art* identifies the enemy that every one of us must face, outlines a battle plan to conquer this internal foe, then pinpoints just how to achieve the greatest success. *The War of Art* emphasizes the resolve needed to recognize and overcome the obstacles of ambition and then effectively shows how to reach the highest level of creative discipline. Think of it as tough love . . . for yourself. *The Demon in the Machine* *Penguin UK* 'A gripping new drama in science ... if you want to understand how the concept of life is changing, read this' Professor Andrew Briggs, University of Oxford When Darwin set out to explain the origin of species, he made no attempt to answer the deeper question: what is life? For generations, scientists have struggled to make sense of this fundamental question. Life really does look like magic: even a humble bacterium accomplishes things so dazzling that no human engineer can match it. And yet, huge advances in molecular biology over the past few decades have served only to deepen the mystery. So can life be explained by known physics and chemistry, or do we need something fundamentally new? In this penetrating and wide-ranging new analysis, world-renowned physicist and science communicator Paul Davies searches for answers in a field so new and fast-moving that it lacks a name, a domain where computing, chemistry, quantum physics and nanotechnology intersect. At the heart of these diverse fields, Davies explains, is the concept of information: a quantity with the power to unify biology with physics, transform technology and medicine, and even to illuminate the age-old question of whether we are alone in the universe. From life's murky origins to the microscopic engines that run the cells of our bodies, *The Demon in the Machine* is a breath-taking journey across the landscape of physics, biology, logic and computing. Weaving together cancer and consciousness, two-headed worms and bird navigation, Davies reveals how biological organisms garner and process information to conjure order out of chaos, opening a window on the secret of life itself.

**Entrepreneurial Strategic Management** *Business Expert Press* This managerial book goes beyond the traditional thoughts on this subject. It brings you a challenging dimension: Create an entrepreneurial organization and you will exceed in the realization of your goals and objectives. The entrepreneurial organization thrives on developing innovation, customer retention, productivity, and growth. Your role and that of other managers has changed dramatically in the last decade because two powerful new forces have joined in the environment. A new social awareness and demographic shift in the work force coupled with a shrinking of markets in a technological and global landscape demands new ways of planning, organizing, and directing organizations. ESM argues the need for implementation as the force majeure in fulfilling strategic plans and the engagement of the whole organization in strategic management to achieve organizational goals. Inside, you'll be introduced to a new approach to understanding the economic marketplace in four quadrants or fields where each determines what strategic responses are needed to thrive in those fields and which direction the organization is to go if it is to survive and grow. This book lays out the cycle of corporate products and services from profitable innovation to decline and failure and offers the executive a road map to renovate and build the organization.
