Once the preserve of firms in poor markets, Western companies are now seeking ways to appeal to cost-conscious and environmentally-aware consumers at home. ## Saving Leonardo

### A Call to Resist the Secular Assault on Mind, Morals, and Meaning

*B&H Publishing Group* **Is secularism a positive force in the modern world? Or does it lead to fragmentation and disintegration? In Saving Leonardo, best-selling award-winning author Nancy Pearcey (Total Truth, coauthor How Now Shall We Live?) makes a compelling case that secularism is destructive and dehumanizing. Pearcey depicts the revolutionary thinkers and artists, the ideas and events, leading step by step to the unleashing of secular worldviews that undermine human dignity and liberty. She crafts a fresh approach that exposes the real-world impact of ideas in philosophy, science, art, literature, and film--voices that surround us in the classroom, in the movie theater, and in our living rooms. A former agnostic, Pearcey offers a persuasive case for historic Christianity as a holistic and humane alternative. She equips readers to counter the life-denying worldviews that are radically restructuring society and pervading our daily lives. Whether you are a devoted Christian, determined secularist, or don't know quite where you stand, reading Saving Leonardo will unsettle established views and topple ideological idols. Includes more than 100 art reproductions and illustrations that bring the book's themes to life. Praise for Saving Leonardo: "A feast for the mind and for the eye. Nancy Pearcey not only is a trustworthy guide for a nuanced discussion on the relationship between culture and the gospel, but she is a gifted teacher as well . . . Saving Leonardo is a rare, precious gift to the churches and universities alike." Makoto Fujimura, artist and author of Refractions: A Journey of Faith, Art, and Culture "Nancy Pearcey has done it again and better than ever. She has taken the complex sophistication of the best cultural analysis and laid it out for any person to grasp, enjoy and use to live out their daily lives honoring Christ. An astounding accomplishment!" James W. Sire, author of The Universe Next Door "G. K. Chesterton said 'the danger when Men stop believing in God is not that they'll believe in nothing; but that they will believe in anything.' Nancy Pearcey understands where believing in anything leads and in this book she**

reveals where a secular philosophy is taking us. A balanced, fair, and impacting work!" Cal Thomas, syndicated and USA Today columnist "Nancy Pearcey helps a new generation of evangelicals to understand the worldview challenges we now face and to develop an intelligent and articulate Christian understanding . . . Saving Leonardo should be put in the hands of all those who should always be ready to give an answer--and that means all of us." R. Albert Mohler, Jr., president, The Southern Baptist Theological Seminary "Nancy Pearcey is an intellectual prophet in our day and one of Evangelicalism's foremost cultural observers. Saving Leonardo is a tour de force. In it, Pearcey provides a penetrating analysis of the nature of contemporary secularism, a helpful exposition of how we got to the present situation, and a well-crafted strategy for changing the situation. This is her best effort yet . . . a must read." J. P. Moreland, distinguished professor of Philosophy, Biola University and author of The God Question "Nancy Pearcey is unsurpassed in the current generation of Christian thinkers . . . The magic continues with this book. Pearcey's virtues as a writer and thinker are once again fully evident in the range of material that she has mastered, the encyclopedic collection of data that she presents, and the analytic rigor with which she separates truth from error in worldviews. She is a prophetic voice for contemporary Christians." Leland Ryken, Clyde S. Kilby professor of English, Wheaton College "Brilliant . . . The book brings complex, abstract ideas down-to-earth -- or rather, down-to-life. . . . Saving Leonardo bridges the gaps between the arts and the sciences, the theoretical and the practical. The book not only argues for the unity of Christian truth but exemplifies that unity and shows it in action." Gene Edward Veith, provost, Patrick Henry College

## Hip Hop Decoded

### From Its Ancient Origin to Its Modern Day Matrix

*MOME Publishing Inc.* **SUPERANNO** This masterpiece takes its reader from Hip Hop's ancient origin to its modern day Matrix. Never before has a book been written about Hip Hop through the spiritual scope of the culture, or has examined the culture from a mystical perspective. The Black Dot cleverly accomplishes both, while providing plenty of fuel for a conspiracy theorist. Hip Hop Decoded reveals that Hip Hop is far deeper than just beats and rhymes, and masterfully illustrates that each element of Hip Hop (Graffiti, DJ, Emcee, and B-Boy) has an ancient origin (hieroglyphics, drummer, oracle, and dancer), as well as spiritual significance (earth, air, fire, and water).

## Baseball Haiku: The Best Haiku Ever Written about the Game

*W. W. Norton & Company* Presenting more than two hundred of the greatest haiku ever written about the game. There are moments in every baseball game that make fans catch their breath: the pause while a pitcher looks in for the sign, the moment a cocksure rookie gets picked off first, or the instant a batter lashes a game-winning homer into the night sky, just before the sell-out crowd explodes onto its feet. Haiku captures these moments like no other poetic form, and Baseball Haiku captures the sights, the sounds, the smells, and the emotions of the game like no previous collection. Some of the most important haiku poets of both America and Japan are featured in this anthology; including Jack Kerouac, a longtime baseball fan who pioneered English-language haiku; Alan Pizzarelli, one of the top American haiku and senryu poets of the last thirty years; and Masaoka Shiki, one of the

four great pillars of Japanese haiku—a towering figure—who was instrumental in popularizing baseball in Japan during the 1890s. With over two hundred poems spanning more than a century of ball playing, Baseball Haiku reveals the intricate ways in which this enduring and indelible sport—which is played on a field, under an open sky—has always been linked to nature and the seasons. And just as a haiku happens in a timeless now, so too does Baseball Haiku evoke those unforgettable images that capture the actions and atmospheres of the national pastime: each poem resonates like the lonely sound of cleats echoing in the tunnel as a grizzled veteran leaves his final game. The largest collection of haiku and senryu on baseball ever assembled, Baseball Haiku is an extraordinary treasure for any true baseball fan.

## Innovation, Evolution and Economic Change

### New Ideas in the Tradition of Galbraith

*Edward Elgar Publishing* John Kenneth Galbraith was an eminent economist and proponent of change. The contributors to the book further his analysis on the evolution of capitalism; taking into account changes to the general economic climate since the publication of J.K. Galbraith's main thesis, they outline new ideas which form fertile ground for new research. The book begins with a penetrating analysis of the main features of today's capitalism and in particular the conflict between shareholders and managers. It moves on to focus on the consequences of globalization in the decision-making processes of large corporations and represents an important step in the development of a theory of fraud and corruption within corporations. In the final part, the authors address and explore the consequences of the domination of influential groups over major social and political decisions, on the blurred boundaries between the public and the private sectors and its consequences in the fields of technological regulation and the evolution of public services. In so doing, the authors question the meaning and power of democracy in today's society. Innovation, Evolution and Economic Change will appeal to a wide readership and audience of economists, policy makers and political organization.

## Transformational CEOs

### Leadership and Management Success in Japan

*Edward Elgar Publishing* 'It is hard to imagine a more enticing topic: why some Japanese firms succeeded in the 1990s despite an economy that failed. The answers are both common sense - operational effectiveness and CEO leadership - and Japan specific - break with traditions. The lessons about leadership, in particular, have wider relevance for leaders, managers, consultants and academics.' - Andrew Campbell, Ashridge Strategic Management Centre, UK Transformational CEOs questions why some Japanese firms succeeded in the 1990s despite an economy that failed - regardless of the burst of the 'bubble' economy, a number of Japanese companies have maintained or extended their international leadership

in particular sectors. The authors argue that whilst some of the reasons for successes are plain common sense - operational effectiveness and superior CEO leadership - some are Japan-specific and point to a break with traditional leadership rationale.

## French Tanks of World War II (1)

### Infantry and Battle Tanks

*Bloomsbury Publishing* The first of two volumes covering the French armor of World War II, this title looks at the infantry and battle tanks that faced the onslaught of the German Blitzkrieg in 1940. Many of the French tanks were intended as replacements for the World War I-era Renault FT, and various modernization efforts throughout the inter-war years had given rise to a number of new infantry tanks, including the Renault R35 and R40, FCM 36, and the Hotchkiss H35 and H39. Alongside these developments was a separate family of battle tanks, starting with the Renault D1, D2, and, finally, the best-known French tank of the campaign - the Char B1 bis. *French Tanks of World War II (1)* offers a background to the design and development of these tank types, and an evaluation of their performance in the Battle of France.

The book distinguishes between going global for new markets and internationalizing production and sourcing. For both, the book proposes procedures for performing meaningful strategic analyses and for developing successful international strategies. Lastly, it highlights the challenges faced by international companies and discusses useful decision processes. The book offers valuable insights for company executives, participants in Executive MBA programs, and master's students.

## The Years

*Seven Stories Press* \*Shortlisted for the 2019 Man Booker International Prize\* Co-winner of the 2018 French-American Foundation Translation Prize in Nonfiction Winner of the 2017 Marguerite Yourcenar Prize for her entire body of work Winner of the 2016 Strega European Prize Considered by many to be the iconic French memoirist's defining work, *The Years* was a breakout bestseller when published in France in 2008, and is considered in French Studies departments in the US as a contemporary classic. *The Years* is a personal narrative of the period 1941 to 2006 told through the lens of memory, impressions past and present—even projections into the future—photos, books, songs, radio, television and decades of advertising, headlines, contrasted with intimate conflicts and writing notes from six decades of diaries. Local dialect, words of the times, slogans, brands and names for the ever-proliferating objects, are given voice here. The voice we recognize as the author's continually dissolves and re-emerges. Ernaux makes the passage of time palpable. Time itself, inexorable, narrates its own course, consigning all other narrators to anonymity. A new kind of autobiography emerges, at once subjective and impersonal, private and collective. On its 2008 publication in France, *The Years* came as a surprise. Though Ernaux had for years been hailed as a beloved, bestselling and award-winning author, *The Years* was in many ways a departure: both an intimate memoir "written" by entire generations, and a story of generations telling a very personal story. Like the generation before hers, the narrator eschews the "I" for the "we" (or "they", or "one") as if collective life were inextricably intertwined with a private life that in her parents' generation ceased to exist. She writes of her parents' generation (and could be writing of her own book): "From a common fund of hunger and fear, everything was told in the "we" and impersonal pronouns."

## Reconstructing Religious, Spiritual and Moral Education

*Routledge* Religious Education is now identified as a shortage subject as a growing number of pupils in schools opt for it. The growing emphasis on children's moral and spiritual education, the DfEE's hunt for new teachers, OFSTED's calls for improvement and reinforced links with philosophy have pushed the subject into the spotlight. Based on research and partnership with schools this book examines and explains : \* the role of Religious Education in the curriculum \* the role of spirituality in children's lives \* better teaching practice, giving practical examples.

## Reef Dance

*Minotaur Books* **There is a certain poise that comes with understanding the ocean's moods, tapping a pulse borne of a distinct, untamed, unfathomable energy source. An equilibrium, located on a singular track between the sucking trough and the pitching crest. A sense of perfect balance on a rolling, temporary stage, not a single movement wasted. A spray-blinded late takeoff in roaring Santa Ana winds. A confidence, knowing your instincts won't let you down. Thirteen years ago J. Shepard's mother rose before dawn, packed a bag and walked out of his life forever. Since then, the rolling surf has been his only escape, a refuge from the daily stress of his job defending parents in the overburdened L.A. juvenile dependency court, and from the dark, unanswered questions of his past. When J. is assigned a high profile case, one in which a mother is accused of selling her child to the highest bidder, even a day in the surf won't let him escape. J. can't hide from the media attention that the case draws, and nor can he hide from the painful memories of his own desertion that the case congers. He realizes that if he does not confront the mystery of his own past he will always be stuck in equilibrium, unable to move against his emotional and physical tide. He will be stuck in the darkest spot in the ocean, the reef dance. J. simultaneously throws himself into the case and search for the reasons behind his own mother's disappearance. In order to succeed in both areas, however, he must rely on an old friend, Jackie Pace, a wayward surfing legend with a sordid past, that no one believes is reliable. But J. needs his friends help, and Jackie must rise to the challenge not just because he is J.'s friend but because he is much more intimately linked to the mystery than J. could ever know. Reef Dance will suck you into the surfer's pacific, pulling you deep within it's mystery, and the turmoil of one man's soul.**

## Recovery Determinants of Distressed Banks

### Regulators, Market Discipline, or the Environment?

*International Monetary Fund* Based on detailed regulatory intervention data among German banks during 1994-2008, we test if supervisory measures affect the likelihood and the timing of bank recovery. Severe regulatory measures increase both the likelihood of recovery and its duration while weak measures are insignificant. With the benefit of hindsight, we exclude banks that eventually exit the market due to restructuring mergers. Our results remain intact, thus providing no evidence of "bad" bank selection for intervention purposes on the side of regulators. More transparent publication requirements of public incorporation that indicate more exposure to market discipline are barely or not at all significant. Increasing earnings and cleaning credit portfolios are consistently of importance to increase recovery likelihood, whereas earnings growth accelerates the timing of recovery. Macroeconomic conditions also matter for bank recovery. Hence, concerted micro- and macro-prudential policies are key to facilitate distressed bank recovery.

## Reconstructing Nature

### Alienation, Emancipation and the Division of Labour

*Routledge* In the light of the confusion surrounding the environmental crisis, Peter Dickens explores how the natural world relates to the social. The book aims to find ways of reorganising knowledge in the light of ecological consciousness.

## Reconstructing Teaching

### Standards, Performance and Accountability

*Routledge* One of the greatest resources a school has is its staff. How teachers themselves, and their work, are defined are therefore matters of utmost importance. Major trends of increased control and 'new managerialism' are occurring in most OECD countries, radically altering both the content and form of teacher education. This book outlines recent changes in teacher education and professional development and, by drawing on recent research findings, explores the positive and negative impacts on the nature of teaching and the shape of the profession.

## Obsessive-Compulsive Personality Disorder

*American Psychiatric Pub* "Obsessive-compulsive personality disorder (OCPD) is characterized by a pervasive and maladaptive pattern of excessive perfectionism, preoccupation with orderliness and details, and need for control over one's environment. It is the most common personality disorder and is associated with significant morbidity and increased health costs. Unfortunately, clinicians often do not diagnose OCPD or may incorrectly diagnose it as obsessive-compulsive disorder (OCD) or attention-deficit/hyperactivity disorder. Although progress has been made in understanding OCPD, many treatment providers do not know how best to address it clinically. This book examines treatment options along with developmental, psychological, and behavioral etiologies and the deeper neurobiological underpinnings of the disorder"--

## Reduced Forms of Rational Expectations Models

## Reconstructing the Lifelong Learner

## Pedagogy and Identity in Individual, Organisational and Social Change

*Routledge* How is adult learning used to produce personal, organisational and social change? This interesting examination of adult learning for change illustrates through diverse case studies and theoretical perspectives that personal change is inextricably linked to broader organisational and social change. The authors explore how theorising education as a vehicle for self-change is relevant to the practices of educators, learning specialists and others concerned with promoting learning for change. The book examines the relationship between pedagogy, identity and change, and illustrates this through a range of case studies focusing on the following: \* Self-help books \* Work-based learning \* Corporate culture training \* AIDS education \* Gender education \* Sex offender education. A concluding chapter discusses how writing an academic text is itself a pedagogical practice contributing to the identities of authors. This unique text will be of interest to students of education, sociology, cultural studies and change management as well as teachers, educators and professionals involved in lifelong learning or change management in any way.

## Recovering the Margins of American Religious History

## The Legacy of David Edwin Harrell Jr.

*University of Alabama Press* Normal 0 false false false MicrosoftInternetExplorer4 Recovering the Margins of American Religious History, a celebration of the life and work of David Edwin Harrell Jr., brings together essays from Harrell's colleagues, peers, and students that explore his impact and legacy in the field of American religious studies. Raised in an upper-class family in mid-twentieth-century Jacksonville, Florida, Harrell's membership in the Church of Christ helped establish his sense of self as a spiritual outsider. This early exclusion from the Christian mainstream laid a foundation for Harrell's pioneering studies of marginalized faiths, including the first stirrings of neo-fundamentalism and the diminishingly influential social gospel movement. Harrell's connections with these religious movements point to his deeper ongoing concerns with class, gender, and race as core factors behind religious institutions, and he has unblinkingly investigated a wide range of social dynamics. Combining an extensive knowledge of and long-standing passion for American religious history with a comprehensive understanding of the developing world, Harrell's research and writings over his lifetime have produced compelling portraits of the American religious underclass, an increased integration of religion into the narrative of world history, and innovative new comparative studies in the healing and charismatic movements of the developing world. ## Reconstructing Teacher Education

*Routledge* This book maps out a new paradigm of teacher education and, by implication, professional education generally. The book opens with two alternative theories of teacher education and training and explains the concepts and assumptions on which they rest including beliefs about the nature and role of education in society. It then proposes a 'natural science' paradigm and its implications for establishing a coherent view of teacher education. Subsequent chapters indicate the professional implications of such a model.

## Reconstructing Subjects

## A Philosophical Critique of Psychotherapy

*Rodopi* This work is about the deceptive nature of psychotherapy. In particular, it is about those therapies that claim to provide the client with insight and self-knowledge when in practice they are a means of social control absorbing clients into socially acceptable norms. Through a philosophical analysis of key concepts such as knowledge, insight, and subjectivity, and through an examination of mechanisms intrinsic to psychotherapeutic practice, such as power, interpretation, and suggestion, this monograph unveils how psychotherapy deludes clients into believing they have discovered their true self. Rather than gaining self-knowledge and insight into their true or core self, clients are subtly reconstructed and reconfigured along prevailing social values. Furthermore, the very epistemological and metaphysical world-view clients are deceived into believing is highly suspect and founded upon a fascistic understanding of knowledge. As an alternative to such domination, psychotherapy needs to reconstruct itself along Nietzschean-Deleuzian lines where the focus is on multiple identities, difference, and creativity. Rather than focusing on an analysis of past memories to alleviate symptoms such as anxiety or depression, therapeutic intervention should aim for a non-repressive conception of self-knowledge and insight based upon a creative future and not a regretful past. This entails a different understanding of knowledge and reality that is not based on subjugating the world to what we know about it, but on immersing ourselves within reality in all of its concrete richness. And such an approach is preferable not because it is “true” but because it is more liberating.
