BOAT WORKS

Tate Publishing **If I could do anything right now, what would it be?** It was that simple question that began an adventure of a lifetime, leading Merton to quit his job, leave everything he'd ever worked for, and pursue his lifelong dream of sailing the South Pacific. But just when he thought he was done working, reality reared its ugly head. Merton soon learned that while dreaming was one thing, bringing the dream to life was quite another. He had no boat, no experience as a sailor, and no clue how to navigate the challenges ahead. What he did have was the idealistic optimism that comes with inexperience; after all, how hard could it really be? In his revealing and humorous novel, **Boat Works**, author Tony Disanto takes a satirical look at the circumstances that can overcome even our best efforts in life. Unwittingly, Merton believed he could escape the absurdities of modern society by sailing into the sunset, only to find that life's difficulties are hard to escape. **Boat Works** takes readers on a hilarious voyage filled with big dreams, frequent disappointments, and a determination unlike any other. Merton is intent on conquering the oceans, but along the way, he discovers that the greatest satisfaction and happiness in life may come hidden within our greatest losses. Author Tony Disanto has been venturing out to sea since childhood. He has sailed across the Atlantic Ocean alone, east-bound and west-bound. He has also sailed the Caribbean Islands, from Barbados to Belize. Whenever he can get away from work as an engineer, he prefers to drop anchor in the calm and tranquil waters of the Bahamas, spending the winter months reading, writing, and exploring the more remote out-islands.

FAREWELL MR PUFFIN

A SMALL BOAT VOYAGE TO ICELAND

Bloomsbury Publishing 'It would be hard to imagine a more thoughtful, intelligent and companionable person to go to sea with than Paul Heiney.' Bill Bryson 'High comedy on the high seas. Informative and warm and freezing. It's quite a combination.' Griff Rhys Jones The puffin is the joker amongst the seabirds of the north Atlantic, but what is happening to this much-loved bird is far from a laughing matter. This is the conclusion of writer and broadcaster, Paul Heiney, who set sail from the east coast of England bound for Iceland, propelled by a desire to breathe the cool, clear air of the high latitudes, and to follow in the wake of generations of sailors who have made this often treacherous journey since the 13th century. In almost every harbour he tripped over maritime history and anecdote, and came face to face with his own past as he sailed north along his childhood coastline of east Yorkshire towards the Arctic Circle. But there was one major thing missing from this voyage - the sight of puffins. They are remarkable birds, uplifting as a ray of sunshine after a storm. To see them and share their waters was also part of Heiney's ambition. Imagine then his disappointment when, first, no puffins appeared off the Farne Islands, then none to be seen on puffin hotspots like Orkney. When he failed to see puffins on Iceland, it was the last straw, and he started to become seriously concerned. Heiney senses that a new chapter is about to be written, and it is one in which we may have to say farewell to the puffin forever. This book is rich in travel and sailing narrative, natural and social history, and with a strong undercurrent of good humour. It provides not only an insight into the private life of the puffin, but an honest portrait of human life on the ocean waves, as well as a reflection on what we might lose if the puffin disappears from our icy

northern waters.

WOODEN BOATS FOR BLUE WATER SAILORS

Exploring the world's mystery from the deck of an ocean-going sailboat propelled by the wind and your own wits and skills, is the most magnificent of personal accomplishments. Amateur ocean sailing developed during the first half of the 20th century and reached its peak during the two decades after WWII. Then, mass produced and marketed boats subtly undercut the bond between the sailor and his boat. The sport lost its meaning. **Wooden Boats for Blue Water Sailors** explores the quiet counter-revolution to mass production boat-enabled by cold-molding and the epoxy bonding of wood--which has presented an opportunity for sailors to re-bond with their craft. **Wooden Boats for Blue Water Sailors** begins with a history of ocean sailing. Then it uses the sciences of material and structure to demonstrate the superiority of wood as a boat building material. It climaxes with the description of a new way for building an epoxy bonded wood boat that will last the next generation to use. An afterword describes use of the new technique to restore to life traditionally built wood boats that are failing, yet too precious to abandon. For sailors, **Wooden Boats for Blue Water Sailors** is a celebration of the wits and skills they exercise to sail upon the sea. For builders, **Wooden Boats for Blue Water Sailors** offers new techniques for economically building ocean going boats. For designers, **Wooden Boats for Blue Water Sailors** offers history to inspire them to remember, reflect and refine the requirements of the sea overlooked in the rush to modernity. For the craftsman, by itself, a short appendix concerning use of the tape measure will earn the cost of the book. **Wooden Boats for Blue Water Sailors** will delight and inform the sailor, boat builder, yacht designer and bring joy to those who love beautiful sailboats.
